## 600. How do you recognize a troll?

Ostrzeszów/Poland 01/01/2024

It often happens that we have a discussion that resembles a game of table tennis. Opponents bombard each other with devastating arguments and ignore everything the opponent has put forward. They don't have to be trolls yet. It is true that we are dealing here with one of the characteristics of trolls, namely ignoring factual arguments, but then again, these arguments, whatever they may be, exist and are raised in the heat of the moment.

A real troll is different. A real troll practically has only one argument to support his words. The following applies: If I say it (or write it), then it is so! Sometimes he quotes a television pundit of questionable quality, but usually he avoids substantive discussion. He realizes that he has no chance at an authentic exchange of words. The troll's job is to cause confusion, divert attention, and annoy the opponent. It often happens that the troll himself succumbs to similar emotions.

Dear trolls. I don't have access to your camera, it's just a picture I found in the depths of the Internet.

If you are interested in this topic, I recommend my article from March 2023, [Troll Attack](#). You can learn to become a troll and make some money.

We already know that trolls don't make substantive arguments. It's easy to fall into the trap of treating anyone who dares to hold or, even worse, express different views as a troll. However, this is certainly not the case. We as a society are being manipulated. Manipulation that tells us there is only one correct point of view. If you look at the world from one point, you lose sight of an infinite number of other, no worse points.

We often find it difficult to accept that someone interprets things differently than we do. He just sees it from a different perspective. When it comes to a real discussion, both sides may think similarly but based on different experiences. A common case is a marital dispute in which both parties hold virtually the same views and use different words.

## 601. Another fairy tale – Pearl Harbor

Ostrzeszów/Poland 01/02/2024

In the February 2023 article [The Agony of a Great Empire](#), I wrote about the American provocation surrounding the Lusitania ship, which served as a pretext for US entry into World War I. Jeannette Rankin's speech to the US Congress in 1942 revealed the next US provocation. It was another excuse for the US to enter the war. This time the Second World War.

Today is the anniversary of the Japanese attack on Pearl Harbor on December 7th, 1941, which caused America's entry into World War 2. On December 8th, 1942, exactly one year after president Roosevelt stood before Congress and demanded a vote for war, Jeanette Rankin, the only member of Congress to vote against America's entry into that war, penned an address to Congress, entitled, "Some Questions about Pearl Harbor". In the speech, she asks whether or not the attack by the Japanese was 'unprovoked', as FDR put it. [Source](#).

[Source](#).

For centuries, politics has been a theater played against one's own nations. The Pearl Harbor lies about sacrificing the lives of their own soldiers just for propaganda were just one episode in a long list of perfidious deceptions.

**Challenge everything you think you know.**

 Iran doesn't have a nuclear bomb.  
 China is not communist.  
 Assad did not use chemical weapons.  
 The Titanic didn't sink.  
 There is no genocide against the Uighurs.

Pearl Harbor was not a surprise attack.

Every day we receive news that does not match the official narrative. What are we going to do about it? Most of the time we ignore them because they don't fit our thoughts and ideas about the world. We would rather change the world than our ossified, long-devalued views shaped by media propaganda. We can curse all we want, but the fact remains: our assessment of world politics is based primarily on the knowledge we acquire – guess where? That's right: television, radio, press, internet, friends. The latter are consumers of "truth" just like us. No one is immune from mass propaganda, even if they can recognize it. There are still good books, but we read fewer and fewer of them.

## 602. The war for our minds

Ostrzeszów/Poland 01/03/2023

Due to my profession – I am an electronics engineer – I should definitely write more about the 5G technology that is widely used in mobile communications. Actually, I could write a lot about the technology itself, but this blog is not aimed only at a small group of specialists, and I have no intention of boring the rest. In short, in my opinion this technology is a logical result of progress in the field of telecommunications and I have little to criticize. Since technology in itself cannot be bad, but only technically imperfect, it is not worth dealing with it here. The potential threats it poses are definitely more important.

In the August 2023 article [When the air runs out](#), I wrote about cases of attacks on the gathered crowd in which, in my opinion, 5G technology was used. Saturday's article on Global Research titled [The Brain is the Battlefield of the Future](#) touched on this topic.

The film discussed in the article: Dr. James Giordano: The Brain is the Battlefield of the Future, published over five years ago. [Source](#).

... we are all vulnerable – vaxxed or unvaxxed – to mind interference through the worldwide coverage of 5G shortwaves. And the worst is, we may not even notice when it “hits” us.

DARPA let a couple of contracts in 2011 / 2012 with the University of California for what is called “electronic telepathy”, to be able to monitor the brains of people at distance and to determine what they are thinking.

I’m skeptical when I read about the ability to “determine what they are thinking” Yes, I experimented with a Bluetooth scanner. I can confirm that vaccinated people carry graphene oxide microparticles that can communicate via Bluetooth 2.4 GHz. However, this is definitely not enough to transmit human thoughts to a server. There are many technical problems that stand in the way of collecting people’s thoughts.

Even if it were possible to read human minds in laboratory conditions, the method of obtaining this information through injected chemical substances, for example in boosters, would be very complicated. Then you must submit this information. Graphene oxide can respond to the signal from a Bluetooth transmitter nearby (usually up to 10 m), but it derives the energy to transmit from

the electromagnetic field itself and the energy is negligible. In such a case, communication seems to be possible only through a mobile phone with a special, hidden application installed for this purpose. Difficulties such as secretly injecting applications into a mobile phone, for example as part of the operating system (Android, IOS, etc.) or by updating the system, can also be overcome.

Oh my God, I would rather reassure you, and here I am writing about the technical possibilities of listening to our thoughts. However, I think you will be reassured by the news that any revelations about reading other people's minds have been greatly exaggerated. Emotions can be recognized, they influence the composition of the blood and this can be measured, but who wants to know that a protester is angry? That's obvious. If you're not angry, you don't go to demonstrations because you don't see a reason for it. Despite sensational reports in the press, no one has yet managed to put other people's thoughts into words.

Another problem is the harmful effects of electromagnetic radiation on the human brain.

If we add to this the now classic, widely used methods of psychological warfare using psychops – psychological operations – the picture emerges of a war in which we are all taking part, regardless of whether we are aware of it or not.

I could learn to read minds, but I don't know  
whether I am willing to endure this series of blows.

## 603. Escalation of farmers' protests in Germany

Ostrzeszów/Poland 01/05/2024

It takes enormous efforts to persuade the otherwise peaceful German farmers to take such a desperate step as the mass protests on the streets. The German coalition government, which was described as a traffic light because of the three colors of the co-ruling parties – incompetent, destructive, puppet because it is subject to strong globalist influences – rose to the challenge. German farmers have been besieging the Brandenburg Gate and many other facilities in Berlin for weeks. Those interested in this protest are referred to the article [Farmers in Anger](#) ([source](#)), published on Tuesday on the German platform Apolut GmbH.

A tractor wearing a previously mandatory “mask” drives around a police blockade.

Yesterday, farmers blocked the Schlüttsiel ferry port and access roads to confront Economics Minister Habeck, who was returning from his vacation on the Hallig Hoohe. In the small port town of Ockholm near the Danish border, where the minister wanted to leave the ferry on land, this did not happen because the farmers decided to talk to him.

Mr. Habeck is completely ignorant when it comes to the affairs of his ministry, which is why he has decided not to allow such a conversation. The ferry then drove with the minister to another port.

The evidence of this minister's incompetence are his statements about companies going bankrupt (he called it a short business stoppage) and many embarrassing statements on economic issues. Mr. Habeck is an author of children's books – one of the most difficult literary genres. He probably knows this kind of literature well, but he knows nothing about economics.

## 604. Covid intelligence

Vienna 01/07/2024

Where common sense fights fear, emotions usually win. As a child, when I came home in the evening, I was afraid of shadows and dark places. An adult could always calm me down in a situation like this:

*There's nothing scary there, just a wolf with big eyes.*

I wasn't good at running, but I could compete with the best. That's why I can imagine what people experienced when they were bombarded daily with the Covid horror on television.

It was easy for me not to be afraid of Covid – I haven't watched TV in over 20 years. When I visit friends where, as in many homes, the TV has to be blaring loudly, I usually don't visit those places again. In a very short time, a new belief emerged that I called the Covid Paradise. You can see some of the rites and rituals of the believers of this fashionable religion.

Source [Telegram](#) 01/07/2024 12:51.

Everyone has the inalienable right to fear. This right is defended by everyone – especially those who invented this pandemic and made it known to the whole world.

However, when the lying media says that it is good to inject the gene mRNA substance intramuscularly, everyone does it and, like a cult, tries to put pressure on all their friends and family to do it too.

## 605. Lockdown in Germany

Vienna 01/08/2024

A new type of lockdown begins in Germany today, organized by protesting farmers. The Berlin-Brandenburg Higher Administrative Court ruled that farmers' protests, including highway blockades, were legal. The largest farmers' protest in German history has been announced for today, January 8, 2024.

The plan is to block 25 entrances around the capital and on all highways in the country with tractors and trucks. [Police authorized these activities](#) on the condition that the blockades would be broken every 30 minutes. [Source](#). Yes, this time even the mainstream press is covering these protests. Since the million-strong rally (August 29, 2020) was described in this media as a riot by a group of radical Nazis, something has changed.

Planned farmer protests locations in Germany. Further information (place and time) can be found [here](#).

Tractors from Romania, Poland, the Netherlands, Belgium and France are on their way to Germany to support German farmers. Other sectors in Germany are also joining the farmers, including hunters, fishermen, train drivers and many more. Many small businesses, but also employees, will stop work to join the protest. Some restaurants are distributing free food to the demonstrators. Source: [Telegram](#) January 7, 2024 8:43 p.m.

This is what the new lockdown unplanned by Davos looks like. Source: [Telegram](#) January 7, 2024 10:18 p.m.

In the media war that has been going on for almost four years, the scales of victory are tipping in favor of the truth. Victory over the lies of the mainstream media has not yet been declared, but they have apparently concluded that it is time to change their tactics before trust in them drops to zero.

When a meteorite hits there during the conference in Davos on January 17... we will keep everything we have and be happy.

## 606. They can do anything

Vienna 01/09/2024

No, they can't do everything. If they could, they would have established their order long ago. If you don't know who "they" are, you can look at their photos, descriptions of their positions, and even message some of them on social media and ask why they are so stupid? [Here is "their" list.](#)

How many times have I read comments whose author is convinced that an activist fighting on our side is a false agent of Klaus Schwab! Elon Musk, for example, only pretends to be a free speech advocate. He eventually founded the largest company producing electric cars and, what's worse, supports transhumanism with his company Neuralink. Such attitudes always have the same reason – FEAR. If we add the backing typical of pessimists, the complete picture emerges. Such a commentator prepares the groundwork so that when something happens, he can scream with all his might – I told you so! So what? Did this help anyone?

Naguib Mahfouz, Egyptian writer and Nobel Prize winner for literature, said: **Fear does not protect against death. Fear makes life impossible.** For those who have decided to control their anxiety, I recommend this website: [just six minutes of reading.](#)

Let's get back to "those", i.e. those who can supposedly do everything. I know it's not easy, but let's try to slip into the shoes of these "world healers" who risk their great wealth to depopulate the world, and once there are half a billion people in the world, they enslave them Rest of humanity. Do you think they are not afraid? Murdering 7.5 billion people, bribing governments, media and scientists, and exploiting the financial crisis is quite a crime.

Of course they are afraid for their own skin. No personal protection, no bunker in Hawaii will help if the depopulation candidates recognize their true intentions and organize themselves well. That's

why they use the tactic of introducing murder gradually, and when things get too hot, they retreat, calling this step a humanitarian gesture.

Not everything goes according to her plan. For example, a year and a half ago they were planning another plandemic – monkeypox. It was so dangerous that half of humanity could be wiped out. They would fall over laughing. Not only is the name of the disease stupidly chosen, but repeating the same trick has no chance. Whatever you say about the thoughtlessness of the people who went like sheep to the vaccine slaughter, these people will not be fooled by the same scam again. The war in Ukraine or the Hamas attack organized by Israel means that most people have been deceived again and cannot connect it with the pandemic. You probably have many similar “events” planned.

Forgive me for writing so carelessly about wars in which many innocent people actually die. They do not die for the glory of their homeland. They die only to instill FEAR in those who watch this suffering on television, munching chips and drinking sweet poison, for example Coca-Cola with or without sugar.

Our world has changed in almost every aspect. For example, good old fairy tales that generations grew up with are perceived differently today:

## 607. The Russians enter

Vienna 01/11/2024

Ever since German Foreign Minister Annalena Baerbock declared war on Russia, Germans have been wondering when the Russians would come. Here is the answer:

The Russian speaks German – translation below. Source [Telegram](#) 10/1/2024 12:58.

Dear Germany,  
Have you always asked when Russia will come to Germany?  
Here's your answer. Now it's coming.  
We are coming to support you at demonstrations throughout Germany.  
We arrived in trucks. Now you also have the support of the Russians.  
The Russians know that the German population has never had anything against the Russians.  
Only the government. That's why we're on your side.  
Thank you for your hospitality – our friendship cannot be broken.  
Long live Russia, long live Germany!  
Let's fight for peace, for a new future, without war!

Russophobes will likely be outraged by such arbitrary actions by Russian truck drivers. That doesn't fit her image. Russians must be bad by definition... Well, propaganda works great on the mindless. I can already see the headlines in the press: Putin sends civilian soldiers to support right-wing extremist farmers!

However, I have good news for them – their hero is changing his war strategy. Now he will definitely defeat Russia.

## 608. Who invented social distancing?

Vienna 01/12/2024

Already in [my first article on March 30, 2020](#), I mentioned the role of Antoni Fauci – the former head of the CDC – the American equivalent of the German Paul Ehrlich Institute – in spreading pandemic lies. Fauci appears often in my articles. Also in the role of the defendant in the [news in advance article](#), where I wrote three years ago about his trial, which I predicted for June 2024. Apparently my prediction won't come true, but the retired Plandemist had to testify before a House subcommittee on Tuesday. This time he was asked about the scientific basis of “social distancing,” which was recommended worldwide at the time as a panacea against a fictitious pandemic.

The American New York Post published a [report on the hearing](#).

Fauci, 83, revealed to the House Select Subcommittee on the Coronavirus Pandemic that the “six feet apart” recommendation championed by him and other US public health officials was “likely not based on scientific data,” according to Chairman Brad Wenstrup (R-Ohio), who is also a physician.

Antoni Fauci, the US government's Corona advisor, admitted that the distance requirement “somehow appeared” and suddenly everyone demanded it – but it had no scientific basis.

Hundreds of doctors and scientists were publicly vilified for maintaining a senseless social distancing rule that primarily served a psychological war on humanity. Anyone who logically and based on the research of independent scientists claimed otherwise was immediately labeled a conspiracy theorist, a tinfoil hat wearer, and several similar epithets. It was created on the basis of a fear artificially created by the media, a psychosis of a non-existent virus, a non-existent pandemic.

An officially supported attack on society.

Apparently there is an epidemic of amnesia among the politicians responsible for the genocide and the officials who supported them. You can check it out for yourself by watching the video below. Mr Fauci recounted his lack of memory more than 100 times during his testimony before the US Congress on Tuesday.

Anthony Fauci testifies in Congress on COVID-19 pandemic.

Keeping your distance from other people is a good way to prevent conspiracies. Also conspiracies against a real conspiracy.

Slogan of 2020: Keep your distance!

## 609. Where is the general?

Vienna 01/13/2024

Seymour Myron Hersh is an American investigative journalist of Polish-Lithuanian origin, known for exposing the dark side of American politics, such as the [1968 Mỹ Lai massacre in Vietnam](#), the [torture in Abu Ghurajb prison near Baghdad](#) in Iraq as well as a look behind the scenes at the bombing of the Nord Stream 2 gas pipeline in the Baltic Sea over a year ago. Two days ago, he wrote an article on [substack.com](#) about the [disappearance of a four-star Army general under U.S. Secretary of Defense Lloyd Austin](#). [Source](#).

Three days before Christmas, septuagenarian four-star general and Secretary of Defense Lloyd Austin disappeared from the Pentagon without President Biden and his advisers knowing. He had gone to a military hospital to receive treatment for an unspecified illness without informing the president he served.

The retired Pentagon officer, who has close ties to the Pentagon, told me that the problem with Austin “was not that he was absent without permission, but that no one at the Pentagon or the White House asked about him or missed him. Nobody asked where he was.

The references to President Biden’s decision not to fire the defense secretary sound strange. In my opinion, General Austin decides Biden’s position and not the other way around. For example, if Lloyd Austin is the éminence grise to whom the hospitalizations of Washington’s top politicians should be reported, to whom should he confide the truth about his temporary weakness? Competition that will only take over his influence and position?

Of course, these are my speculations, but there is no other way to explain the behavior of the US Secretary of Defense, who has so far followed all the rules conscientiously.

U.S. Secretary of Defense.

The Red Sea incident described in the article perfectly describes the chaos in the Pentagon caused by the general's disappearance:

The Defense Department's lack of leadership was immediately apparent when the USS Laboon, a destroyer patrolling the Red Sea to protect international trade to the Far East through the Suez Canal, was threatened by a Houthi missile-carrying drone late last week. The ship's captain had permission to act in self-defense and the ship's gun batteries destroyed the drone, but the captain wanted to do more. He repeatedly asked for permission to go to the source of the drone attack on land in Yemen and destroy the drone. His request to defend his ship – an escalation that would have required high-level approval from the missing Austin, who was hospitalized at the time – was ignored. "There was no one to ask," the retired officer told me.

## 610. Where is the world heading?

Vienna 01/14/2024

Information about the goals, economic context and influence of the WEF on world politics is publicly available online. But over 90% of people in the world don't want to know. That is exactly right. Many people know about it but don't want to deal with it. As if this knowledge could be dangerous for them. I have a question for you: Do you really not want to know what they have in store for us? These plans are public and if nothing stands in the way, they will become our future if we live to see it.

Who is Klaus Schwab? Which forces are supporting him in the background? This Kla.TV documentary ruthlessly exposes the masterminds behind the WEF and their plans for a world dictatorship. [Source](#).

[Source](#).

You don't have to be an economics or management professor to understand the mechanisms of power over the world. The only thing that is necessary is the desire to learn and to be open to the initiative that has been slowly emerging for 100 years to transform our world into a place where awareness of the phenomena that dominate this world truly dangerous knowledge will be the enslaved remnant of Earthlings.

Well, I won't stand out because my boss might find out that I'm a subversive. Who pays back the mortgage loans? Pay for it while you can, and in a few years find that if you don't invest hundreds of thousands in the pseudo-ecological renovation of this house, the house will be taken away from you and sold for pennies to those who can afford it Investments. In Germany this nightmare is already a reality.

**Who fights can lose,  
who does not fight has already lost.  
[Bertolt Brecht]**

I don't write about these things so you can panic and sell your house for next to nothing. Panic is a tool of the globalists. I don't recommend picking up a gun and shooting everyone you consider an enemy. Today's battle is to convince people of the validity of Bertold Brecht's slogan.

Yesterday I was at a demonstration in Vienna against the WHO treaty. This contract is scheduled for May 2024. 250 people came. The rest were too cold and had to pay back loans...

Demonstration against the WHO treaty January 13, 2024 Vienna Heldenplatz.

The protest, which has been going on for a week and is large for Germany and inspired by farmers with tractors, is the largest to date and enjoys great support among the population. Most demonstrators taking to the streets in Germany have never heard of Klaus Schwab's Great Reset concept. They are taking to the streets because the situation in Germany has deteriorated so drastically that they have experienced first-hand what it means to give tacit consent to lawlessness.

On January 8, 2024, farmers in Germany initiated protests, which were joined by numerous other professional groups.

## 611. Delegates Congress

**Vienna 15.1.2024**

Delegates are coming to the congress of the globalist world party in Davos for the 54th time. Today is the first day of this event, which is scheduled to last until Friday. The delegates also include the President of Ukraine, who landed in Zurich today.

The richest beggar in the world was officially received at Zurich Airport by Swiss Foreign Minister Ignazio Cassis.

On Sunday, Chinese Prime Minister Li Qiang arrived at the same airport in Zurich and was received by Swiss President Viola Amherd. However, the world powers rank higher than tiny Ukraine. Maybe both will meet behind the scenes to end this hopeless war in Ukraine.

Keystone/GAETAN BALLY sda-ats

As co-chair of the Ukraine Peace Conference, Foreign Minister Ignazio Cassis held the first WEF press conference this week. He appreciated the fact that the conference, organized jointly by Ukraine and Switzerland, was attended by 83 delegations from all over the world, “not only from the West”. Brazil, India, South Africa and Saudi Arabia were also represented. Obviously, the BRICS countries play an important role in this globalist game.

And what about the current world hegemon? Neither Grandpa Joe nor his Vice President Kamala Harris will appear in Davos. The American delegation to the convention was limited to five envoys:

- John Kerry, special presidential envoy for climate;
- US Special Representative for Ukraine’s Economic Reconstruction Penny Pritzker;
- Assistant Secretary of State for European and Eurasian Affairs James O’Brien;
- Samantha Power, Administrator of the U.S. Agency for International Development;
- Senator Chris Coons.

This year, over 300 prominent figures will take part in this meeting of globalists, including over 60 heads of state and government. There will be strong representation from all key regions of the world. Top political leaders participating in the program include:

Li Qiang, Premier of the People’s Republic of China; Emmanuel Macron, President of France; Ursula von der Leyen, President of the European Commission; Javier Milei, President of Argentina; Han Duck-soo, Prime Minister of the Republic of Korea; Pedro Sánchez, Prime Minister of Spain; Viola Amherd, President of the Swiss Confederation 2024 and Federal Councilor for Defense, Civil Protection and Sport; Volodymyr Zelensky, President of Ukraine; Alexander De Croo, Belgian Prime Minister; Gustavo Francisco Petro Urrego, President of Colombia; Kyriakos Mitsotakis, Prime Minister of Greece; Mohammed Shyaa Al Sudani, Prime Minister of Iraq; Leo Varadkar, Prime Minister of Ireland; Previously Hani Al Khasawneh, Prime Minister of the Hashemite Kingdom of Jordan; William Samoei Ruto, President of Kenya; Najib Mikati, President of the Council of Ministers of Lebanon; Oyun-Erdene Luvsannamsrai, Prime Minister of Mongolia; Mark Rutte, Prime Minister of the Netherlands; Bola Ahmed Tinubu, President of Nigeria; Andrzej Duda, President of the Republic of Poland; Mohammed Bin Abdulrahman Al Thani, Prime Minister and Foreign Minister of the State of Qatar; Aleksandar Vučić, President of Serbia; Tharman Shanmugaratnam, President of Singapore; Ranil Wickremesinghe, President of Sri Lanka; Isaac Herzog, President of the State of Israel; Srettha Thavisin, Prime Minister of Thailand; Pham Minh Chinh, Prime Minister of Vietnam.

The main goal of this year’s meeting in Davos, Switzerland, is to restore trust in the ideas of the globalists. Restoration? You can restore trust if you ever had it. In the case of the WEF, this trust was always limited to the members of that club.

Trust.  
The only thing in the world that cannot be rebuilt.

## 612. Humans are changing the climate

Vienna 01/16/2024

However, it is true! Humans influence climate change. The climate of fear has long been created by man. The influence of humans on the weather can be demonstrated by looking at how a rain machine works. It was built on behalf of NASA as part of a geoengineering project. Well, how come? Finally, NASA is involved in space projects, such as a [soft landing on the moon](#). Well, that “moon” that the Apollo missions landed on is in Nevada, so the cloud generator fits pretty well into NASA’s overall output. Only this time it’s not a Hollywood-style production – they’re actually doing it!

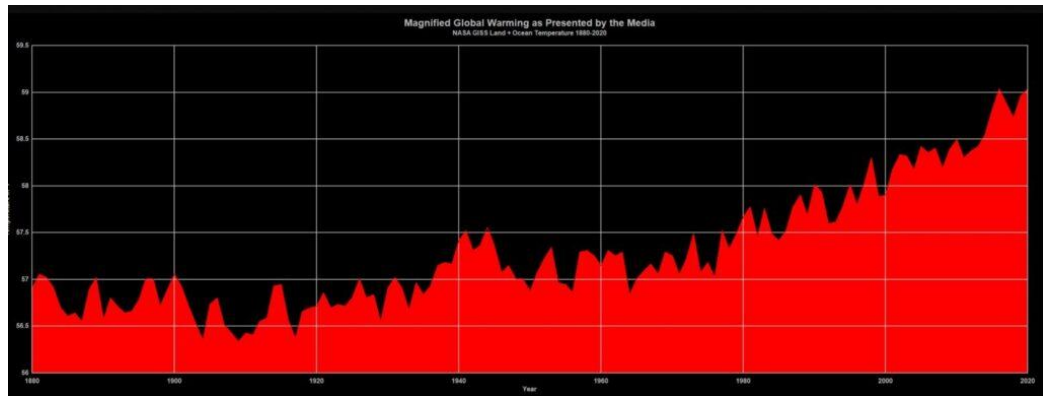

NASA’s cloud machine. Source: [Telegram](#) January 15, 2024 9:01 p.m.

[01/17/2024] Today one of my readers pointed out to me that the cloud generator shown in the film is actually a structure that tests a water-powered rocket engine. Such an engine produces enormous amounts of water vapor. [Original video on YouTube](#). The video is the same but the description is completely different. I’m not 100% sure what it really is – I’ll leave it up to each of you to judge

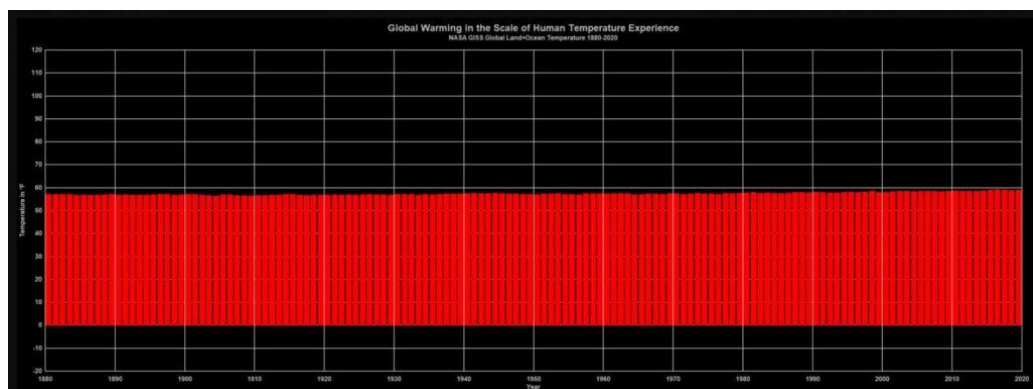

NASA is a company subordinate to the Pentagon that carries out projects imposed on it. Geoengineering is used to manipulate the weather. It also has the advantage that the media can scare people with the effects of artificially induced climate catastrophes. Volcanic eruptions, earthquakes, tsunamis and monsoon rains are actually the result of human activities. Therefore, pay taxes for the CO<sub>2</sub> you breathe out, otherwise it will get even worse!

Earth’s temperature data collected by NASA is [fraudulently published in the media](#). We see the following results of “scientific” analyzes in the press:

[Source.](#)

The correct diagram should look like this:

[Source.](#)

The fun continues! The girls and boys in Davos definitely have lots of ideas so that we don't get bored. They are currently discussing: How to effectively scare the impudent people who are not yet afraid?

The world is threatened not by global warming, but by global stupidity.

## 613. Happy because I have nothing

Vienna 01/17/2024

One such statement, often incorrectly attributed to Klaus Schwab, was published in a slightly different form by Danish MP Ida Auken on the World Economic Forum (WEF) website.

Deputy Chairwoman of the Academic Council of the Faculty of Theology in Copenhagen, MA in Theology Ida Auken.

The article was removed from the WEF website on November 20, 2020. However, it is difficult to remove all traces online, which is why archived copies of this article remain. I found the [December 20, 2016 version](#) for you.

Welcome to 2030. I own nothing, have no privacy, and life has never been better... Agenda 2030 – we only have six years left until this deadline set by the UN outside the UN forum. The WHO treaty is due to be passed this year – an attack on what remains of state sovereignty.

That all sounds pessimistic. However, I'm far from panicking. Any war, including the current one – not the one in Ukraine or Gaza, but global, because it covers the entire world – can and certainly will end in a very unexpected way. Falling into depression, complaining and criticizing bolder actions, arguing: It won't change anything – it won't improve our situation.

***If a horse knew its strength, no one would sit on it.***

They are definitely more organized, but “they” are a handful compared to us. We are like this horse – we lack the knowledge of our own strength. When the final confrontation comes, the most important thing will be a correct assessment of the world situation.

The primary elections for the Republican Party's candidate for US President took place in the US state of Iowa on Monday. The presidential election will take place on November 5th this year. Donald Trump achieved a record result – something like this has never happened before. He had 30% more than the next guy after him, Ron DeSantis. I'm not a fan of Trump. I would also have a lot to blame him for – that's natural. Donald Trump's victory in the presidential election would thwart the criminal plans of the globalist technocrats meeting in Davos to take over the world.

Trump certainly won't come on a white horse to save Europe. The only thing he seems to associate with our continent is the war in Ukraine, which he will end within 24 hours of reassuming the US presidency. He has enough to do at home. The US has already lost its role as the world's gendarme and Trump will certainly not try to restore this state of affairs. I secretly hope for new efforts to disarm the world. It's not that simple if you take into account the power of not only the American arms lobby and its shareholders.

Why is the USA heading towards World War III?  
They are running out of the money they made in World War II.

## 614. Our man in Davos?

Vienna 01/18/2024

Yesterday, Wednesday, Argentine President Javier Milei spoke at the globalist meeting in Davos. However, most of those present would prefer not to hear such a speech. Instead of praising the accumulation of power in a few hands, he firmly opposed socialist-style bureaucratic tendencies and restrictions on basic civil liberties.

Speech by Argentine President Javier Milei in Davos. [Source](#).

“We should never forget that socialism is always and everywhere an impoverishing phenomenon that has failed in all countries where it has been tried.” Milei points out directly – citing the best Austrian economists – that one of the Main problems of the West is a group of intellectuals, leaders and leaders who rely on the flawed – as he puts it – “neoclassical” economic theory, which is based on abstract models. and not on a causally realistic analysis of the economy that leads them – consciously or unconsciously – to support interventionism and socialism, which are responsible for the impoverishment of entire nations. [Source in Polish](#).

Javier Milei is a libertarian, which has earned him numerous attacks from the anti-globalism camp. He became President of Argentina a month ago on December 10 and decided not to allow Argentina to join the BRICS bloc. His controversial decision to stay in the US dollar zone was, in my opinion, caused by strong pressure, probably blackmail, from the International Monetary Fund (IMF). After his speech, voices appeared on the Internet that it was a planned game by the globalists. I wouldn’t demonize Klaus Schwab’s club, they also make mistakes. One of these mistakes was inviting Javier Milei to this conference.

While the vast majority of militant pseudo-environmentalists flew to Davos on a private jet, Javier Milei opted to fly to Zurich on a regular airline.

On the plane, passengers were able to take a photo with the Argentine president as a souvenir.

The scandal involving Colombian President Gustavo Petro revealed a different approach. He sparked controversy when his government rented a luxury cottage in Davos for four days for one million Swiss francs. It is obvious that he did not pay with his own money but benefited from Colombian taxes.

## 615. Criticism in Davos

Vienna 01/20/2024

After the [Argentine president's speech in Davos](#) on Wednesday, many people questioned the sincerity of his speech. The most common assumption was that this was a deliberate action by Klaus Schwab to, as he put it, "win back trust." I doubt he can regain the trust he never had outside the globalist community. While this is true, this change in WEF tactics is a major victory for the anti-globalization opposition.

So far, the WEF has put forward the only correct theory to save the world from destruction by a global ideology that seeks power over the entire world. The first cracks in the official narrative are already beginning to appear. Do you know? I am convinced that many declared globalists will begin to think about alternatives to technocratic global solutions.

Even if the texts of the speeches were presented to the organizers of the Globalist Congress, imagine their faces when Klaus Schwab told them: Comrades, we must swallow this frog, otherwise no one will ever trust us again! Or something like that. Certainly the text of the speech of the President of the Heritage Foundation – the Heritage Foundation – Dr. Kevin D. Roberts played just such a role, regardless of whether he was subject to initial censorship or not.

[Source.](#)

Has your confidence in the Great Reset increased after these two critical speeches at the Davos Forum? Let us rather let such discussions be led by pessimists who want to be prepared in the event that the only WEF does something to us. Haven't we been experiencing this for years? They do and will continue to do so. You have entered the path from which there is no turning back.

Can you imagine Bill Gates' speech to the nations of the world apologizing for attempted genocide and promising to be a good boy? They know that no one will forgive them and that is why they will never voluntarily leave the chosen path.

## 616. The Rockefeller clan

Vienna 01/21/2024

In the 19th century, John Davison Rockefeller Senior, the founder of the Rockefeller dynasty, set up the oil imperium Standard Oil Company which was basically the oil monopolist at the beginning of the 20th century. He was known as one of the richest men in history and retired with an asset of approximately 900 million dollars. This asset would be equivalent to 300 billion US dollars today. [Source](#).

[Source](#).

Our current medicine owes its development direction to [John D. Rockefeller](#). Thanks to this oil industry tycoon, a powerful branch of the chemical industry called pharmaceuticals appeared. A century of Rockefeller's medical ideology of creating more and more patients by "treating" symptoms with mostly toxic chemicals has reached a situation in which DISEASE caused by prescribed drugs and medical errors, known as iatrogenesis, has been well documented as the third leading cause of death in the developed world, after cardio-vascular disease and cancer. You can read about this in the British The Conservative Woman in an article from January 7, 2023 entitled: [Medicine – the third biggest killer in the world](#).

Due to the conclusion of the WEF meeting in Davos, I will quote here the abbreviated origins of the mafia called the World Economic Forum:

- David Rockefeller admits he recruited Henry Kissinger...
- Klaus Schwab admits he was recruited by Henry Kissinger...
- Klaus Schwab and the WEF are puppets of the Rockefeller dynasty.

Quote from the [Twitter post](#) in Polish, where you can watch a short film in English documenting the above connections.

Do you take medical advice from people who profit when you are sick?!

## 617. The plandemic is finally being dealt with

Vienna 01/22/2024

In a small Central European country, an authentic analysis of the plandemic is becoming more and more real. Slovak Prime Minister Robert Fico announced in his speech to the Slovak Parliament that he would soon convene an investigative commission to investigate the background of the plandemic: the purchase of unnecessary medical equipment, tests and pseudo-vaccines, etc. in order to determine responsibility for the 21,000 deaths in the Slovakia to investigate after receiving untested vaccines against a fictitious pandemic.

[Source.](#)

Eternally dissatisfied people will ask: What can such a small Slovakia do? Well, the Slovak government isn't complaining – it's taking action. This is a huge difference because most governments in the world usually listen to those above them, i.e. the messengers from Davos.

This was expressed by G.B. 1930. Shaw in connection with vaccination against smallpox.

And what comes next? A commission will be set up, which will be consulted by the Slovak Sanitary and Epidemiological Station. A message is created that we can read. The public media, with the exception of Slovakia, will remain silent about this. The free media, on the other hand, will report on this topic ad nauseam.

And here you can clearly see why Ms. Ursula von der Leyen, the head of the European Commission, complained so much about “disinformation” in Davos. It has given itself the privilege of defining what disinformation is, and it or the committees it appoints – very “objective” disinformation specialists – will put their censorship stamp on any critical speech that does not conform to the recommendations of the globalists.

**The biggest problem of our time is not conflict or the climate, but the spread of disinformation.** This was announced by the head of the above-mentioned commission. It is obvious that if they do not want to completely lose the war for our minds, they have no choice but to fight against the uncontrolled publication of information. They cannot counter their lies with any reasonable arguments, so their only option is censorship. Truth will defend itself, only lies need the institutional, fear-based help of representatives of global ideology to prolong their miserable lives.

If someone asked me if I knew of any examples where conspiracy theories turned out to be true...

## 618. A deadly vaccine

Vienna 01/23/2024

Let us be under no illusions, the Covid Jab is not only “experimental”, it’s a Big Pharma “killer vaccine” which modifies the human genome. The evidence of mortality and morbidity resulting from vaccine inoculation both present (official data) and future (e.g. undetected microscopic blood clots) is overwhelming. Quote from today’s [GlobalResearch article](#).

The genocide committed by Pfizer and several fellow competitors is becoming increasingly present in the media that is not controlled by the globalist mafia. There will be much more information like this. Last November, Texas Attorney General Ken Paxton filed two lawsuits against Pfizer.

Interview with Karen Kingston, a former Pfizer employee who has accused the company of genocide.

Source: [Telegram](#) January 22, 2024 10:41 p.m.

We recall that a Texas court successfully forced Pfizer to disclose research results related to the elixir of happiness. Because of the new trial, the minimum fine if convicted is \$10,000. For such a company – ridiculously low. But...

The lawsuit accuses Pfizer of 18 crimes. Even \$180,000 is no problem for this pharmaceutical giant. However, if that total is multiplied by 3.5 million Texans vaccinated, we arrive at a maximum of \$630 billion. In the event of a positive, i.e. guilty, verdict, the state of Texas will be rich with a handsome sum, while Pfizer will go out of business because it deserves it.

Criminal liability for genocide is something entirely different. What is delayed is not lost. Pfizer is merely a contractor. His Pentagon and Department of Defense contractors, as well as the planners who have been preparing for a century to reduce the human population to 500 million, should be held accountable. However, they foresaw the possibility of failure and sent psychopaths like Bill Gates, Anthony Fauci and George Soros to use as scapegoats if they lost the war for world power. I know potential scapegoats have blood on their hands, but in my opinion the gray eminences definitely deserve more punishment.

German Minister of Health Karl Lauterbach recommends: let's get vaccinated against black ice!

## 619. Elephant hurling

Vienna 01/25/2024

There is a debate tactic known as ‘elephant hurling’. This occurs when the critic throws summary arguments about complex issues to give the impression of weighty evidence, but with an unstated presumption that a large complex of underlying ideas is true, and failing to consider opposing data, usually because they have uncritically accepted the arguments from their own side. Excerpt from the book “Disproving Evolution 2” by Dr. Jonathan Sarfati and Michael Matthews. The article from July 20, 2022 appeared on VIROLIEGY: [Elephant and Spike](#).

More specifically, this way of presenting “scientific” research can be described as follows: This tactic is known as elephant hurling, which is where one throws out numerous arguments and/or studies in order to create the illusion that the weight of the evidence is on their side. It is an intimidation tactic designed to overwhelm not only the “opponent” but also those reading the article. It is an attempt to claim that a preponderance of evidence means that one’s argument is correct.

The Elephant Hurl process.

It is now sufficient to repeat this process many times so that the majority of readers get the impression that it is a well-founded scientific claim. I realize that most readers will not be prepared to engage with the analysis of scientific falsification presented and would rather have it presented briefly on a platter. Of course it is possible, but in this way they voluntarily forego checking the credibility of what I write. Thank you for your trust, but I am not infallible, I also make mistakes. It may happen that I trust sources that, despite checking, turn out to be unreliable. Maybe I’m drawing wrong conclusions.

You’re probably thinking that I want to pass the job on to you. That’s not what it is about. I still did my part. Simply put, if you make the effort to verify the information, you will be more confident about it. You’ll also learn how to verify sensational media news.

The article can be summed up in a nutshell: Since [the existence of viruses has never been scientifically proven](#), the recently fashionable spike protein is also a hoax. Or even shorter: no virus – no spike.

**Dr. Richard Horton**

Current Editor-In-Chief  
of the Lancet

**“The case against science is straightforward: much of the scientific literature, perhaps half, may simply be untrue. Afflicted by studies with small sample sizes, tiny effects, invalid exploratory analyses, and flagrant conflicts of interest, together with an obsession for pursuing fashionable trends of dubious importance, science has taken a turn towards darkness.”**

## 620. 18 years in prison for the former health minister

Vienna 01/26/2024

Unfortunately not with us. Let us not expect such a process in a country ruled by a clique completely dependent on the globalist agenda. However, it is the first country in the world to sentence not only the former health minister but also a number of senior state officials responsible for Covid sanitation to heavy prison sentences for fraud related to the plandemic.

An [article on this topic](#) was published on vietnamnews.vn on Friday, January 12, 2024.

The verdict comes as Vietnam intensifies its years-long anti-graft campaign, which has seen hundreds of senior officials investigated for corruption, forcing many to quit, including former president and Prime Minister Nguyen Xuan Phuc and two deputy prime ministers. [Source](#).

I'm sorry, I was wrong, said Nguyen Thanh Long during the trial.

Yes, everyone would be sad if they were accused of corruption. I don't speak Vietnamese and haven't watched the videos from 2020 when health ministers around the world spread the same lies. It was not a genocide trial, we still have to wait for such events. I know that many people react in disbelief at the mere possibility of such lawsuits. For this to happen, the political situation in the world must change. We still have a long way to go, at the end of which at least some of the perpetrators of the plandemic will receive their well-deserved punishment.

However, victory will not come without effort on our part. Let's fight the lies of the media and politicians. Let us not allow the false thesis to be put forward that millions of people were "saved" thanks to the widespread injection of lethal doses of the mRNA elixir.

## 621. International Court of Justice ruling

Vienna 01/27/2024

The International Court of Justice has made its decision on South Africa's request for interim measures to prevent genocide in Gaza. A quote from [yesterday's article](#) on freedert.online. [Source](#).

Israeli Prime Minister Benjamin Netanyahu commented on the ruling by the United Nations International Court of Justice, saying that Israel was defending itself and was at war with Hamas, not with the civilian population of the Gaza Strip. This is the official position of the Israeli government. However, the facts contradict this statement. In addition, Hamas was founded at Israel's initiative as a counterweight to Yasser Arafat's Palestine Liberation Organization. The terrorist attack on October 7th last year was no surprise for Tel Aviv either.

In my article [Who Shot?](#) November 2023, I presented a video from the Israeli army archives showing civilians being killed by shooting them from a helicopter. Nobody checked who the victims were. Apparently the only thing that mattered was their numbers. The more the better. This will make it easier to justify Israel's final solution to the Palestinian problem. Final Solution – for those who don't know – is a term the Nazis used to describe the extermination of people of Jewish descent.

Final solution. Auschwitz on the left, Gaza on the right. In both cases the goal is the murder of an entire nation.

I am accused of anti-Zionism. A very fashionable weapon today. I am neither for Israel nor for Palestine – I am for peace. After the article [Attack on the Titanic](#) was published, I learned from a comment that J.P. Morgan was of Jewish descent and I am anti-Semitic. I didn't know anything about it and I'm not particularly interested in the criminal genealogical tree. The same applies to the genocide in the Gaza Strip. This crime was not blamed on the Israelis, but on the Israeli government. Nor are we responsible for our government's criminal activities.

The map shows the number of Righteous Among the Nations in each country. This title is only given to those saving Jews who can prove their actions. Typically the evidence is a written account of the person rescued.

## 622. Don't irritate farmers!

Vienna 01/28/2024

This has already burned the fingers of many politicians. It's really not worth messing with farmers – and not just farmers. Many other professional groups are also joining the violent protests that have been going on for three weeks in Germany and several other European countries. According to studies, 80% of German society supports this justified protest.

On Friday, thousands of demonstrators gathered with their vehicles for an aerial photo campaign on the site of the Deichbrand Festival in Nordholz (Cuxhaven district). With tractors, cars, quads, wheel loaders and forklifts, they formed a glowing heart in the dark. In the middle, participants with flashlights formed a “D,” which stands for Germany. [Source](#).

Illuminated tractors and other vehicles formed a heart symbol during the demonstration. [Source](#).

You can also watch a video of this [event on YouTube](#), which features a song performed especially for the occasion by the group United 4, entitled “Here – Now”.

In Poland, protesting farmers are receiving support from foreign colleagues.

In France, farmers spread manure in a McDonald's restaurant.

Source: [Telegram](#) January 25, 2024 8:48 p.m.

FRANCE – Angry farmers attacked Agen prefecture, using 17,000 liters of manure as a weapon. Agen is a town (32,000 inhabitants) in southern France, in the Nouvelle-Aquitaine region.

Source: [Telegram](#) January 26, 2024 5:38 p.m.

Today in France it is not easy to hold an official position – such an official is not only accused of bribery, but also has to learn not only to fight his own stench. It is unfortunate that such measures affect lower-level officials who are only carrying out their bureaucratic duties.

French farmers want Macron not to forget them. So they appeared on the beach in front of the French President's residence.

The former ARD editor-in-chief Rainald Becker wrote on X, formerly Twitter: “Driving a tractor apparently makes you stupid.”

This is the farmers' official response to the embarrassing statements made by some journalists and politicians on the farmers' protests.

## 623. Swastika on the mask

Vienna 01/29/2024

C.J. Hopkins – an American satirist who has lived in Berlin for 20 years, was acquitted of the verdict in the first instance. The case concerned two Twitter posts in August 2022 in which a swastika was visible behind a mask. The verdict of the Berlin court, which he appealed: 3,600 euros or 60 days in prison.

[Source.](#)

In the [article published today](#) on the Fassadenkratzer (Facade scratches) blog – [source](#) – you can read Hopkins' appeal with an interesting analysis of the legal and political situation in Germany.

The gods have a strange sense of humor. Last week, thousands of people took to the streets across Germany to protest against fascism. They chanted, "Never again is now!" Many of these people spent the last three years, 2020 to 2023, unconditionally following orders, parroting official propaganda, and demonizing anyone who dared to challenge the government's unconstitutional and authoritarian actions to question during the so-called Covid pandemic.

...

In Nazi Germany, the swastika was the symbol of conformity to the official ideology. From 2020 to 2022, the masks functioned as a symbol of conformity to a new official ideology.

This is just a small excerpt from this call – it's really worth reading. It shows how totalitarian the system we are heading towards is.

This is the path to totalitarianism. We've been down this road before. Please, let's not do it again.

You are not responsible for the programs you received as a child.  
As an adult, you are 100% responsible for fixing them.

## 624. Understanding Disease X

Vienna 01/30/2024

In order to “better prepare” and “understand disease X”, the WHO “pandemic agreement” should be adopted worldwide. The [Ethiopian terrorist WHO boss Tedros](#) promoted a non-existent disease at the WEF forum in Davos. What is this mysterious disease X? A figment of the imagination of psychopaths, philanthropists and eugenics fanatics. Why is this invented? For the same reason that the non-existent disease COVID-19 was created. The latter was artificially cobbled together from a group of ten known upper respiratory diseases. Then widespread media advertising was enough. The target is our fear. It was fear that four years ago enabled most supposedly sensible people to unthinkingly support unfounded restrictions on freedom.

Author of the photo: Drug Addiction Clinic from Pixabay.

The same fear, sometimes supported by 30 pieces of silver, leads young activists to stick their hands to the asphalt and shout to the whole world: We will not leave our global warming to anyone! The same fear has led people to repeat the media’s lies about Russia’s “war atrocities” in Ukraine, while remaining silent when the “good guys” destroy the entire Palestinian nation.

Where there is fear – there is no common sense. We politely convey our thoughts to news outlets. Let them justify their only correct narrative. Why should we put in the effort and risk being excluded from the community of mindless sheep fed one direction by the media?

That’s why we should be afraid, disease X is 20 times more dangerous than Covid. Covid was a fictitious disease with a zero mortality rate because the real causes of these people’s deaths were influenza, pneumonia, an elixir of happiness mislabeled as a vaccine, and ventilators used against medical principles. So disease X also has a mortality rate of zero. This comes from a simple

calculation:  $20 \times 0 = 0$ . I know that this logic will not help those who are afraid. However, fear can be effectively combated. You just have to have the will to fight it and work towards it.

## 625. You have blood on your hands

Ostrzeszów/Poland 02/01/2024

**You have blood on your hands. You have a product that kills people.** These words were spoken during yesterday's hearing of the US Senate Judiciary Committee. Senator Lindsey Graham threw those exact words right in Mark Zuckerberg's face.

Source: [Telegram](#) January 31, 2024 10:16 p.m.

Meta CEO Mark Zuckerberg has apologized to the families of children harmed online. Senator Josh Hawley (R) – MO demanded Zuckerberg apologize in a tense hearing. Zuckerberg stood up, addressed the parents in the room and said, “No one should have to go through what your family went through.”

[Source](#).

This time the mainstream media is not hiding this news under the rug. Detailed reports of this interrogation appeared on several American websites. NBCNEWS published an article yesterday: [Zuckerberg apologizes to families of children hurt online as Senate attacks tech company executives](#).

You will probably agree that an apology will not help the hurting children and their families. Nevertheless, an apology is a first step in the right direction. This does not justify crimes. Without an apology, there can be no fair settlement of crimes of genocide. I'm far from justifying Mark Zuckerberg – after all, he started his career by stealing the idea for Facebook. I also don't know if yesterday's apology was the result of calculation or genuine remorse? I guess he's not sure about it himself.

## 626. US President: We had no attacks on the WTC

Ostrzeszów/Poland 02/03/2024

On Sunday, January 22, President Donald Trump admitted at a campaign rally in Laconia, New Hampshire that there were no terrorist attacks in Manhattan on September 11, 2001. The entire speech can be viewed on [YouTube](#).

For those who are impatient, I have selected a short excerpt from the film (approx. 24 minutes).

Excerpt from a video on [YouTube](#).

Donald Trump delivers a speech during a campaign rally in Laconia, New Hampshire.

His explanation for why he remained silent on the subject for so long sounds strange. Like every US president, he was dependent on political arrangements. However, in the wake of the stolen election, he had much more important matters to deal with – primarily the issue of the fraudulent presidential election in 2020 and purging the Republican Party of RINOs (Republican In Name Only). Like every politician, Trump also announces his sensations at the most opportune moment for him.

There is no doubt that the attack on the WTC was the work of high-ranking people in the USA. What is new, however, is that – although the former and hopefully future president – is speaking about it publicly.

Two 100-story skyscrapers collapsed. Instead of forming a huge pile of rubble, most of the material – steel, concrete, glass, people and office equipment – turned to dust in seconds, covering large parts of Manhattan.

All these elements are “gone with the wind.”

[04/02/2024] Several US readers have pointed out to me that Donald Trump has a tendency to ramble and run his sentences together, and speak with partial thoughts, you can't always take him literally. Therefore, I would also like to express my opinion here that Trump's words may mean his fight against the system and do not necessarily indicate his knowledge of the 9/11 false flag operation. I haven't changed my opinion, but I can't 100% confirm that Trump meant what I wrote in this article.

## 627. Lies and fraud by the IPCC

Ostrzeszów/Poland 02/04/2024

Mass media and the Intergovernmental Panel on Climate Change (IPCC) keep telling us that over 97% of all scientists are convinced of man-made climate change. But is this true? [Source](#).

The constant repetition of lies, just like during the plandemic, is intended to shape a new reality. Regardless of whether the observed world agrees with these fabricated claims, it reinforces the views of many people, which become so entrenched in their consciousness. Who has the time, willingness and ability to review this new news?

[Source](#).

In my search for interesting publications, I came across an interesting blog that also deals with the topic of the IPCC's ecological lies.

The postulate of the meteorological end of the world is the most powerful narrative of our era. Its corporatist excesses determine everyday life. Be it the expropriation spiral, the Graichen clan, the Agora energy transition, the Mercator Foundation, corrupt politics, anti-democratic processes, manipulated numbers or irrational forecasts – it is a transparent farce of the predator caste, which is based on half a century of corruption, indoctrination and corrupted science. In the "Green Economy" the only green ones are the dollar and 100 euro notes, which are shamelessly redistributed from bottom to top. ## 628. You become a robot

Ostrzeszów/Poland 02/06/2024

We live in times when the telephone used for communication replaces communication itself. This topic was discussed in Norbert Häring's German blog: [Our children are forgetting how to speak \(source\)](#).

Chats and likes cannot replace direct communication. How can young people learn to have interesting conversations if instead of using words they just click "like"?

## 629. Tucker Carlson in Moscow

Ostrzeszów/Poland 02/07/2024

The most popular American journalist recently hired by FoxNews, Tucker Carlson, came to Moscow to conduct an interview with Putin despite obstacles from the White House.

Why would he risk so much for an interview? I don't mean an imaginary risk in Russia – it practically doesn't exist. He risks being treated similarly to Australian journalist Julian Assange, who faces over 100 years in prison in the United States for publishing truths that are objectionable to the US government. The only thing he wants to tell us, like Assange, is the truth. You can learn about Tucker Carlson's motivations in a video filmed yesterday in Moscow.

[Source.](#)

Tucker Carlson described the role of the Western media in this film very well – after all, he knows it inside and out.

Russian President Vladimir Putin has been interviewed by former Fox News host Tucker Carlson, the Kremlin confirmed Wednesday. It is Putin's first interview to a Western journalist since his full-scale invasion of Ukraine two years ago. [Source](#). So the interview has already taken place, it hasn't been published yet. For those who are impatient, I would like to inform you that this interview will be published for the first time on [Tucker Carlson's website](#).

## 630. Covid genocide

Ostrzeszów/Poland 02/08/2024

It was summer 2021. I came to Wroclaw, Poland to visit someone close to me. At home the television is blaring. Ambulance drivers can be heard talking about how the patient they are taking to the hospital cannot be admitted to any of the hospitals in Wroclaw due to overcrowding. You probably remember such repeated reports coming out of the truth box. I suggested that we go to any hospital in Wroclaw to see what the real situation is with this “lack of space” and the queues of helpless ambulances. I received a typical response: “Why should we go there when you can see it on TV?”

A queue of ambulances in Warsaw.

Most of us would rather forget the nightmare of Covid reality that scared us. In January 2024, an article was published on the London platform The ConWom: [Shocking statements from nurses with Covid-19](#).

Nurses, normally reticent in challenging decisions made by doctors in a rigid hierarchical culture, failed to put their patients first. They were complicit in state-sanctioned murder. This was particularly awful in the public hospitals of New York, where the majority of patients were poor and funded by Medicare, the federal system that incentivised use of ventilators, paying hospitals \$39,000 per case. As patients were expected to perish, little care was given and they lay unwashed on their faeces. As soon as a corpse was carried out, the apparatus was used for the next admission.

According to Kimberley Overton, a nurse from Nashville, “I have never seen PEEP (positive end-expiratory pressure) this high in my entire career. Normally we set the value to five, but here I saw a value of fifteen. We blew people’s lungs out.”

Covid-19 was not panic by the authorities, but a deliberate and planned takeover of the healthcare system. Individual care, to which taxpaying citizens believe they are entitled, was replaced by Nazi-style viral hygiene. Petty dictators in matrons’ uniform had never enjoyed so much power: no mask, no shift. The rationale for covid rules was never therapeutic, but exertion of totalitarian authority.

Please excuse the many quotes from the article, the link to which can be found above. However, I’m afraid that, like this example with Wroclaw Ambulance, most of you won’t want to click on it and read the article.

**It was never about what you did, but rather what you could have done but didn't.**

**That's the difference.**

## 631. Interview of the century

**Ostrzeszów/Poland 02/09/2024**

I don't think the title of this article is an exaggeration. Tucker Carlson was the first Western journalist to interview the president of Russia in two years. Conducting the interview itself is one thing, but Tucker Carlson's reach is so great that the mainstream media can only attack the person of this courageous journalist and distort the content of the interview – a classic of today's pseudo-journalism from Davos. This two-hour interview will allow you to look at the issue of the war in Ukraine from a different perspective, especially for those who finance it – Western taxpayers.

I would recommend Russophobes to be more creative. Terms like "Kremlin troll" and "Russian spies" have long been devalued and make people laugh instead of insulting. The very fact that this interview is being published is an attempt to show how these issues are viewed from the other side of the conflict. Whether the recipient agrees to this content or not is the sole responsibility of the recipient. The censorship of such interviews is a symptom of fascist tendencies of those who preach the fight against fascism.

Orwell's guilt of contacting the wrong person has now become a common accusation against political opponents. This is also a symptom of censorship. When I talk to you, it doesn't mean I support all your views 100%. This is not possible. Two people will always differ in the way they see the world. A discussion with people who parrot TV slogans doesn't help anyone. Personal development should be our goal. We broaden our horizons by discussing with people with different views and trying to understand their way of thinking. This has nothing to do with slavishly adopting other people's views.

Therefore, watch this interview so as not to limit yourself with your knowledge of the world.

Many of you will certainly be shocked at the way the Russian president is interpreting history. In many ways it is different from ours. But who can convince an objective recipient that the story we learned in school is the true one? Putin interprets history like a politician from his own perspective.

The most important information, in my opinion, is the intentions of Russia and its president towards countries independent of Russia. Contrary to the hysteria widespread in the West, Russia has no intention of attacking NATO countries. Viewers will be surprised that Putin doesn't go crazy like a certain painter with a mustache. It will certainly take some time to reach the rest of the audience that believes the media has blatantly lied to them on all issues surrounding the war in Eastern Europe. No wonder, because the provocateurs of this war are the same forces that promote false pandemics, fraudulent visions of the destruction of the world by global warming and advocates of a final solution to the Palestine question by Israel.

Beware of people who are sure they are right.  
Socrates.

These are the people who will claim that Socrates himself admitted that he knew nothing!

## 632. What changed the interview with Putin?

Ostrzeszów/Poland 02/11/2024

Tucker Carlson's interview has been viewed by over 180 million people on X (Twitter). This is only part of the audience. The tuckercarlson.com website does not display view statistics. Added to this is the large number of publications of this two-hour interview on thousands of independent media websites, some of which have been translated into many languages around the world.

12:25 AM · 9 lut 2024 **188,4 mln** Wyświetlenia

The current war in Ukraine dominated this conversation. So far, the media in the West has portrayed it like this: Putin gathered his army on the border with Ukraine in 2022 and marched in to take it. In this argument, only the first part of the sentence is confirmed by facts – the mobilization of the Russian army. Thanks to the publication of Tucker Carlson's interview, people who previously only consulted mainstream sources are learning for the first time more facts behind the scenes of this war. If you don't know what Putin was up to, please read the article [How do you become prime minister?](#) There you will find a conversation translated into German between the US Secretary of State and the US Ambassador in Kiev about the preparations for the takeover of power in Ukraine in 2014.

Boris Johnson, former British Prime Minister, disrupted peace talks in Turkey in April 2022. The talks were uncomfortable for Anglo-Saxon politicians. His only argument: Don't believe Putin's lies. He wants to win the war! Somehow he didn't realize that Russia had won this war a long time ago.

Boris Johnson demands not to believe Putin:  
“People around the world are watching Carlson’s absurd interview with Putin. We must not fall for these lies aimed at success in Ukraine. He will lose.”

Source: [Telegam](#) 02/10/2024 10:23.

Adolf Hitler also believed until the end that the miracle weapon would save Germany from the catastrophe that he himself had caused. Comparisons with the fantasies of current war propaganda and those of the Second World War are obvious. Kiev is not losing the war, it is just leveling the front line, just like the Wehrmacht under pressure from the Soviet Army.

Curiously, at the same time as the Putin interview was published, the American media began attacking President Biden. He is rightly accused of lying in connection with the illegal storage of secret state documents. The prosecutor announced that he would not bring a case against Biden because he was sclerotic. Apparently they want to overshadow the impact of the interview with Putin. The Democratic Party must nominate a candidate for the fall presidential election. This worst of all US presidents to date is also the best candidate they can field.

Biden said this is what “well-secured” top-secret government documents found in his Delaware garage look like on December 21, 2022. These documents appeared there when Biden was Vice President of the United States and he had no right to remove them from the White House.

## 633. NWO – 33 years of state terrorism

Ostrzeszów/Poland 02/12/2024

When in the second half of the last century the world was shocked by news of terrorist attacks in Ireland, Basque separatists in Spain, bloody attacks by the Red Army Faction (RAF) in Germany or suicide attacks by Palestinian fighters, no one expected a much more dangerous form of terrorism could arise: state terrorism.

Greg Reese's film, published a few days ago on InfoWars, describes the history of the New World Order – i.e. state terrorism.

[Source.](#)

In this blog you will find a wealth of information and documents on state terrorist activities. Our world is full of “heroes” who trade the law of the jungle for the right to murder people they don’t even know.

There are certainly other countries besides the USA in which a state form of terrorism is used, but the scale of the attacks caused by the USA and the number of victims are incomparably greater than the sum of all terrorist attacks in the world carried out by the USA did not participate. Destroyed countries, murdered millions of people, destabilization of entire regions of the world: This is how the war between the USA and the people led by George H.W. Bush-named countries – the “Axis of Evil”.

Someone asked me, “Why do I hate Americans so much”? My hands drop when I encounter such thoughtlessness. My criticism only applies to a handful of Americans who use their power to commit crimes. An even stupider argument is: “They elected these people”! Look what kind of idiots we have allowed to come to power in our country. This is how the whole world works, where people still go to vote before the voting function is taken over by artificial (not very intelligent, but heavily manipulated) intelligence.

There will be no revolution here.  
Appropriate forms are missing!

## 634. Fight for survival

Vienna 02/14/2024

The agricultural protests in Europe, which have been going on for over a month, are gaining strength. More and more European Union countries are joining the farmers' strike. It's no longer a battle for privileges for this industry. Farmers fight for survival. If there are no more farmers, we will only have to live on the mass products of large corporations and the worms they spread.

[Source.](#)

There are massive protests in 15 countries of the European Union. Access to highways, offices and border crossings are closed.

Farmers' protests are gaining strength.

The farmers in France are the most radical – this is because of their tradition. What all strikers have in common is resistance to the Green Deal imposed by the EU. It's neither green nor a deal.

Green (un)deal. Import ban. 3 times no.

Photo from a car camera on February 13, 2024, Lower Silesia/Poland.

On Monday, February 12th, an article was published on the German platform Tichyeinblick.de: [How power struggles in the EU are destroying agriculture.](#) [Source.](#)

Part of the Green Deal is the so-called farm-to-fork strategy, which should implement the Green Deal. The strategy aims to make the European food system more sustainable and reduce its impact on third countries, the theory goes. The strategy was implemented through a large number of individual laws that burdened farmers in the EU and were intended to force them out of the market and out of their fields – such as reducing the cultivated areas, excessive fertilizer bans, reducing the number of animals kept and many other mundane details only Brussels bureaucrats could come up with.

**If you see a banana, you are clearly a far-right conspiracy theorist.**

## 635. The WHO is panicking

Vienna 02/15/2024

On November 30, 2023, New Zealand officially notified the WHO of its [rejection of the 2022 IHR amendments](#).

New Zealand and up to three other countries have rejected controversial amendments, proposed in 2022 by the Biden administration to the World Health Organization's 2005 International Health Regulations. Quote from yesterday's article in The Defender entitled: [WHO shows signs of 'desperation' as New Zealand and Iran reject changes to international health regulations](#).

The head of the WHO, the [terrorist Tedros Adhanom Ghebreyesus](#), expresses fears about the failure of the treaty, which deprives nation states of their rights through the WHO. He fears the world will not coordinate action to prevent a future WHO-caused plandemic.

This is a battle victory, but the war against the globalist coup against world power is far from won. Even if this shameful contract is rejected in May, the criminals behind it will have no choice but to continue this fight. The WHO is one of many, but in my opinion extremely important, fronts in this hybrid war. There is also the food front (they want to starve us), that is, the destruction of food producers who are smaller than corporations like Nestle – farmers. There is also a form of slavery based on monetary control – CDBC. Another front is leading to the collapse of industry in previously industrially developed countries. There is currently only one industry sector that is successful: the defense industry.

The biological weapons depopulation and vaccination front has already demonstrated its capabilities thanks to the efforts of the WHO. As more and more people suddenly and unexpectedly fall on the road, the Chinese have invented airbags to protect pedestrians.

Get vaccinated, we will protect you from falls.

## 636. Tucker Carlson at the World Governments Summit 2024 in Dubai

Vienna 02/16/2024

In our media, if it can still be called ours, Tucker Carlson's interview with Putin highlighted Putin's distortion of history, particularly regarding Poland. I, too, would compare the accusation that Poland cooperated with Hitler in his attack on Poland with the US government's equally absurd accusation that Russia blew up its own gas pipeline at the bottom of the Baltic Sea. Putin's position is typical of politicians who take a few facts out of context and ignore the rest to prove an impossible thesis. However, the purpose of this interview was not to address the question of responsibility for the Second World War, which was borne directly by fascist Germany with the support of bank gangsters from the USA and Great Britain.

However, these same media remain silent about the most important information that has already spread to the world. Over 310 million people have already seen this interview on Twitter. On Monday, February 12, Tucker Carlson spoke at the 2024 World Governments Summit in Dubai. This time he was the interviewee.

[Source.](#)

If the sources of information, the media, are oriented towards the established power, then we have a powerless population and totalitarianism. And the US is moving in that direction very quickly. I believe that technology supports this progress, especially machine learning. [...] If you don't have access to information, there is no democracy. Tucker Carlson said during this interview.

“I fear the day when technology disrupts human interactions. Then the world will gain a generation of idiots.”

Albert Einstein.

The United States, as the most powerful country in the world, should play the role of a father, and a father's sacred duty is to protect his family and restore peace within its walls. So if I come home and two of my four children are arguing, what's the first thing I do? Before I can assess why they're fighting, before I can gather the facts and figure out what's going on, I stop the fight. I am the only one who can bring peace. When you see a nation with incredible power starting war for its own gain, you have a leadership that has no moral authority – it is illegitimate. Tucker Carlson's answer to the question: How is it possible that the US is blocking efforts to cease fire in Gaza?

## 637. Euthanasia English style

Vienna 02/17/2024

It will soon be four years since a global pandemic was announced that never happened. The propaganda demand for deaths from the coronavirus was met worldwide through the excessive use of respirators. They were used as a tool to kill patients. This was not the only method of creating “Covid dead.” The English-language Berlin-based ResearchGate published a study in January: [Excessive deaths in the UK: Midazolam and euthanasia during the Covid-19 pandemic](#).

In the British Isles, midazolanes have been widely used since the Covid panic began, particularly in older people. Midazolam is a drug with a very fast and strong sleep injection and sedative effect. It has an anti-anxiety and antispasmodic effect and reduces muscle tension. It is characterized by a rapid onset of action and a short duration of action.

Monthly midazolam injections (green line) in the UK and COVID deaths (red line). [Source](#).

The report's explosive data was released by Australian politician Craig Kelly, national director of the United Australia Party. The report is based on official UK government data on death rates and causes. If the data is correct, the only conclusion is that tens of thousands of elderly English were murdered with an injection of the end of life drug Midazolam. These deaths were then falsely blamed on Covid, which was the basis of the public fear campaigns used to justify the lockdowns and mass mandated injections of the public (including children) with an experimental medical intervention that had zero long term safety data.

This paper shows that the UK spike in deaths, wrongly attributed to COVID-19 in April 2020, was not due to SARS-CoV-2 virus, which was largely absent, but was due to the widespread use of Midazolam injections which were statistically very highly correlated (coefficient over 90 percent) with excess deaths in all regions of England during 2020. The widespread and persistent use of Midazolam in UK suggests a possible policy of systemic euthanasia. [Source](#).

Doctors in England must have noticed that excessive doses of midazolam were causing death, especially among older patients.

Even today we still find doctors who courageously defend the Covid madness. Most of them allowed themselves to be persuaded that they were working for a good cause because they feared the consequences if they started to get to the truth. The explanation that the doctor does not have enough time to check all the information from the medical association and the representative of the pharmaceutical companies only proves his incompetence. They could see the situation in their hospitals and had seen it shown to the world on television. Covid grants have helped a large group of doctors take this stance.

Few of them had the courage not only to seek the truth but also to proclaim it publicly. Only this handful of doctors deserved respect – everyone else was sold out, worse than a prostitute. It can only infect one client at most, but it usually doesn't kill anyone.

## 638. They take care of us

Vienna 02/18/2024

The goal, ultimately, is to transform our free and democratic societies into totalitarian societies. Their goal is to strip each and every one of us of our fundamental rights, of freedom, democracy, the rule of law. They want to get rid of all of this. In the entire history of mankind, there has never been a political elite concerned about the well being of regular people, and it isn't any different now. The so-called "pandemic" was a beta test—conducted by unelected globalists—to see how easy it would be to seize totalitarian control, under the pretext of a global "emergency". For god's sake, stop complying. Start rebelling. They are out to get you if you do not resist. These words were spoken by an MEP from the only truly oppositional German AfD, Christine Anderson.

[Source.](#)

It would be difficult to better describe the situation our world is currently in. The plan to conquer the world, carefully developed for over a century, is now entering its decisive phase. The EU Parliament elections in June, if not cheated, will have a decisive impact on the future shape of this bureaucratic behemoth, which has become a useful tool in the hands of the globalists. Likewise the US presidential elections in November. Parliamentary elections will also take place in small Austria in September. The FPÖ is a party that plays a similar role to the AfD in Germany.

Most people are not interested in politics. Find out what such ignorance can lead to in this short, one-minute excerpt from the Polish comedy Vabank II. The scene takes place on the Polish-German border before the Second World War.

## 639. The war for our minds

Vienna 02/19/2024

A FULFILLING INTERVIEW I've never seen Tucker drop such powerful information bombs! This interview alone could change the perception of Western democracy. It shows the role of the State Department, the Pentagon, intelligence agencies funded by social media services such as Facebook, Twitter and YouTube, NGOs, think tanks and other US-controlled institutions in controlling elections around the world, also in the US! [Source](#) in Polish.

[Source](#).

A new definition of democracy emerged: democracy is no longer the result of the will of the voters, but rather the sanctification of democratic institutions. What are these institutions? The Pentagon, NATO, the WEF (World Economic Forum), as well as the World Bank, mainstream media and NGOs funded primarily by the US State Department, are all elite organizations that feel threatened by the growth of national populism. In this context, democracy means, for example, an agreement between Black Rock and the Wall Street Journal. A selected excerpt from this interview. Mike Benz is executive director of the [Internet Freedom Foundation](#).

Censorship in countries fighting for “Western values” is carried out by the US Department of State and Defense. The CIA outside the USA and the FBI in the USA are also fighting courageously against “disinformation”. These institutions have established private, non-governmental censorship organizations under their control. This is an element of online hybrid warfare. Social media is gradually taking over from traditional media the main role in shaping public opinion. “Disinformation” refers to any public opinion that contradicts the current narrative of American government institutions that are in a globalist quagmire.

To view this phenomenon as geopolitical shows a lack of understanding of the situation. These institutions censor content based on its suitability for a particular group – globalists – rather than the state. The US simply has the most useful institutions for this purpose, which have been almost entirely taken over by supporters of the Great Reset described in Klaus Schwab’s book “COVID-19: The Great Reset”.

Time and again, people complain that few people give independent thought to the future of the world. The comforting self-delusion seems more pleasant than the thought of danger. The majority

of people would not wake up, continue to trust the state media and evade the problems at hand. But reality wants to be recognised and understood: anyone who contradicts it will either be harmed or destroyed. [Source](#).

The term hate speech changes depending on the situation. Today you can read articles in the mainstream media that three years ago would have been dismissed as disinformation, conspiracy theories and a whole host of long-deprecated swear words.

## 640. From poison to vaccine

Vienna 02/20/2024

A year ago I wrote in the article [How and when were mRNA “vaccines” made?](#) presented a film in which Sasha Latypova documents the connection between the US Department of Defense and the development of mRNA “vaccines” against Covid. The same US government institution is responsible for poison spray tests against unsuspecting citizens of several major US cities.

Would a government deliberately harm its citizens? “Never!” Especially for vaccine advocates this conviction is proof for vaccine-safety, as recent history surrounding the Covid-plandemic shows. The following report from Spiegel TV magazine reveals once more that reality looks different: 1994: the US Army conducted experiments with biochemical weapons in major US cities. Involuntary test subjects were US citizens, especially children. The consequences are gruesome ... [Source](#).

[Source](#).

The 1994 Spiegel TV article [Experiments with Poisons on US Citizens](#) ([source](#)) described in this film, written at a time when the media was free to write about such crimes, describes these events as follows:

During the Cold War, the US armed forces not only exposed their own civilian population to the radioactive fallout from their atomic bomb tests. Citizens of Minneapolis, St. Louis and Corpus Christi, Texas were also sprayed with toxic chemicals without their knowledge in the 1950s and 1960s.

Although I have no evidence of this, I am convinced that the USSR also conducted similar experiments on its own citizens. I do not want to justify an empire fighting on the front lines of the Cold War, but I do want to make it clear that the “evil empire” is also the United States of America. Not the inhabitants of these countries, but their successive governments were guided by ruthlessness, because those who had influence on decisions feared that the enemy would gain the upper hand. Therefore, such “little things” as a few accident victims are not a big problem for them.

After all, they were not their relatives. As former US Secretary of State Madeleine Albright said, it was worth sacrificing the lives of half a million Iraqi children to search for weapons of mass destruction in Iraq that have not been found.

Governments have trained their citizens to care about their well-being. Therefore, it is unthinkable that they want to harm us. They force us to put on helmets before riding bikes. We could get hurt! I know, I know that a fall can have worse consequences. What if I had a desire to have such a beautiful plum on my forehead? Do I have to pay the fine in advance?

How many times did I fall on my bike in the 1960s and injure my unprotected knees so badly that sometimes the bones were visible. I returned home, where my mother washed the wound, poured iodine on it and there were no tetanus injections. I don't want to compete with scientific research, but I do want to prevent common sense from being overwhelmed by unfounded fears.

Likewise, the President of Ukraine is sending young people to certain death to defend the Ukrainian authorities' right to corruption. Weaken Russia? Apparently this was the plan of NATO strategists. No, weakening Russia was not the goal of this war at all. The goal was to help the world move from fear of the virus to fear of the Russians. We have to be constantly afraid – that's what the planners of the world revolution want.

But what will this fear give us? Nothing will protect us from nuclear war and the only thing we can do is not to be intimidated to live our lives better with or without the use of nuclear weapons. We will all die – that's for sure. In a hundred years none of us will exist anymore. So why waste our lives on useless worries? The best cure for anxiety is avoiding television. A very unpopular slogan, considering how many of these propagators of an invented reality are visible through the windows of every housing estate in the evening.

## 641. A hidden pandemic

Vienna 02/21/2024

Vietnam has the second fastest growing economy in East Asia after China. In January I wrote about this country in the article: [18 years in prison for the former health minister](#). Today I would like to introduce the real autism pandemic in Vietnam and around the world, which according to the current definition, although often changed by the WHO, should have been announced long ago. The WHO will not do it because there is no vaccine against this disease. On the contrary, vaccines cause it.

Source: [Telegram](#) February 20, 2024 01:43.

Before Bill Gates conquered the market with his vaccines, there was no autism in Vietnam. [Vietnam joined the WHO in 2007](#). [Source](#). Currently, 310 people per 100,000 inhabitants in this country suffer from autism. You can check it out at [visevoter.com](#).

The claim that autism is caused by vaccines is not new. Today it would be easy to blame Putin for this disease – he is the source of all evil. Western media and politicians claim this, including absurdities such as: [Russia will attack American satellites](#). So let's leave Putin in Moscow and deal with the problem of the hidden autism pandemic. Two months ago an article appeared on the German platform Center for Health: [Vaccinations and autism – the hidden truth](#).

In 2013 Dr. William Thompson, a senior CDC official, went public and made a startling confession: He admitted that in 2004 his office allowed a study in which he – Thompson – himself was involved to be manipulated. With the help of this study, the aim was to finally put to rest the rumors about a possible connection between vaccinations and autism. Crucial data was removed from the final report, data that would have shown a causal link between the MMR vaccine and autism.

This is how it works when you hear on TV that mad scientists are making “false” accusations about the harmfulness of sacred vaccinations.

If vaccinations fail, euthanasia will achieve its goal:

The Dutch state has begun euthanizing citizens, including children under the age of twelve, because they have mild disabilities, autism or suffer from alcoholism. According to the government, euthanasia of these people helps “save the planet.”

## 642. They planned to kill Julian Assange

Vienna 02/22/2024

Yesterday, Wednesday, Britain's Supreme Court concluded two days of debate over whether to grant WikiLeaks founder Julian Assange a new appeal against his extradition to the United States on espionage charges. The British court decided to decide on the matter at a later date.

The mainstream German television ZDF also publishes such photos:

[Source.](#)

Also yesterday, Tucker Carlson's interview with Julian Assange's wife Stella Moris appeared. In that interview, Tucker Carlson said that Mike Pompeo, director of the CIA from 2016 to 2018, planned to assassinate him while he was at the Ecuadorian embassy in London.

Tucker Carlsons Interview mit Julian Assanges Frau.

Because the publication of American crimes was considered espionage by the U.S. government, the release of documents such as those in the [Collateral Killers](#) article falls under the provisions of espionage against the United States. At least for the one who dared to proclaim the truth first. This

tactic is intended to intimidate future imitators and impose censorship on all journalists. The publication of Russian war crimes in Ukraine is supported by the Pentagon's propaganda department, even though most of them are untrue.

The journalist and Wikileaks founder Julian Assange is denounced as a spy by the USA. He has been persecuted across Europe on false accusations for 13 years. His reputation is being destroyed worldwide so that we feel less solidarity when his captors humiliate him, torture him and destroy his psyche.

## 643. The biggest fraud in medicine: viruses

Vienna 02/23/2024

I completely understand the indignation of doctors and even greater indignation of representatives of pharmaceutical companies when they hear such “heresies”. For example, if someone claimed that electricity was a fiction, I would suggest sticking two nails into the socket, each in a different hole, to see if electricity is present.

In today’s times, when common sense is often lacking, I must add that this is not an invitation to suicide, but just a rhetorical phrase, and apologize to readers with a sense of humor for this idiotic statement. No one has seen electricity, not even under a microscope, but it exists and there are few brave people who would deny it.

It’s different with viruses. Finally, we were shown countless images of viruses created on computers. For example this one, probably made of knitted mohair:

I’m not surprised at the outrage of doctors who were taught in medical school, without evidence, that viruses exist and cause diseases like influenza, smallpox, or HIV. If they paid attention to who decides the medical curriculum, they would find the first reason for this global lie: BigPharma and its profits. Why prove the existence of viruses when everyone knows it? And how do they know that? From the media, which is largely sponsored by – guess who? Tip: Which industry products account for 80% of all advertising? And besides, we have thousands of reports of isolated viruses. We have them, but what are they worth? From a scientific point of view, nothing. These “isolations” do not conform to basic scientific rules. Before this procedure, the sample is purified by destroying most of the elements, absolutely necessary control tests are not carried out and the so-called [Koch’s postulates](#) – the curse of today’s [pseudoscience called virology](#).

The ITNJ Commission of Inquiry into the Weaponization of the Biosphere held a conference on June 23 and 24, 2019, exposing authorities and institutions involved in acts of ecocide and genocide. He appeared there, among others: Dr. Robert O. Young – an American biologist – and talked about viruses.

[Source.](#)

For years we have been wrongly told that viruses cause disease, but there is no evidence to support this. And who cares? If facts destroy the good interests of the pharmaceutical mafia, all the worse for the facts. After all, most people don't check the validity of media claims. Just rely on TV experts and spread belief in viruses around the world.

The plague is caused by bacteria, but who would have invented viruses earlier and why?

Wolfgang Goethe was surprised that the plague occurred wherever doctors appeared and administered their plague remedies to frightened people.

## 644. Kidnapping of Reiner Füllmich

Vienna 02/24/2024

In October 2020, in the article [Class Action](#), I described the establishment of an extra-parliamentary commission of inquiry into crimes related to the plandemic in Germany. The driving force behind these activities and the main character was Dr. Reiner Füllmich, a German-American lawyer. He was tricked into entering the German embassy in Mexico and was kidnapped. After being forced to fly to Germany, he was arrested at Frankfurt Airport on October 13, 2023.

On Tuesday an article appeared on the Swiss platform UNCUT-NEWS: [Illegal arrest and kidnapping of Reiner Füllmich](#). [Source](#). The lawsuit against a well-known lawyer definitely has political undertones. If the court prohibits the defense from disclosing information about the existence of evidence that the proceedings were tampered with and ignores all requests from the defendant, there can be no fair consideration of the case.

These boxes, full of letters and postcards, were ALL read by Reiner. They are now safely stored as contemporary witnesses who, filled with thousands of words, tell of what Dr. Reiner Füllmich meant to the authors in a dark and uncertain time in their lives.

Another article [Money for nothing: An interview with Reiner Fuellmich](#) ([source](#)) was published yesterday on the German platform Apolut.

I say kidnapping because they actually needed an international arrest warrant. But they didn't have that. The file shows that they didn't have it. And, the file further shows that, it says literally, I was lured to Tijuana under the pretext, literally, it says in there, that we had passport problems. That's not true. Luckily, my wife and I were there together, so although it's a bit of a shame of course because we had to spend a night in jail, my wife's release is confirmation that these passport problems were indeed faked. If you are interested in more details, I recommend you read this article in Apolut.

The wrong person was definitely arrested:

I hope that Martin Luther King's prophetic words will come true one day.

## 645. A time of fear and chaos

Vienna 02/25/2024

Most of us cannot find our way in these times. We've lived our lives in a time of relative stability, and now everything we considered "normal" has been turned upside down. First shock: PANDEMIC. In one month it will be four years since the world was threatened by a pandemic of fear. The fear reached us from every corner of our consciousness, carefully maintained by the political and media conglomerate. Fearing an unknown but named virus, we gave up our freedom and fundamental rights and condemned those who were not afraid.

I write on behalf of the majority. Surely there were those who refused to be intimidated. However, it doesn't help us if we hear: "I knew it from the beginning"... What is important is the direction in which our society has developed. We were divided between those who were obedient – the vast majority – and those who were rebellious. Every discussion was practically reduced to an exchange of insults like "You have to be an idiot to think like that" or "My truth is better because I say that." Not the best censorship for today's society.

After several months of fear, "salvation" appeared in the form of injections and new divisions emerged. Stalwart anti-vaxxers, condemned by TV "experts," have been a thorn in the side of those who believe that if we all get vaccinated, the world will be doomed to eternal happiness.

The second shock two years ago: the war in Ukraine. The war replaced fear of the virus with fear of Russia. We no longer remember how terrible the virus was – now Putin is even more terrible.

In April, two years passed since Russia reached an agreement with Ukraine in Ankara and both countries wanted to sign a peace treaty. However, British Prime Minister Boris Johnson vetoed this decision and the war continues to this day. Despite the publication of the contents of the agreement, despite the statements of the politicians involved in these talks, Johnson insists that it is untrue. It's a lie because he said it. The former prime minister charged Tucker Carlson \$1 million for an interview. That's how much it would cost to prepare more lies.

The thing about fear is that if it is not stoked, it will gradually disappear. That is why we are afraid of being burned by the climate and CO<sub>2</sub>, without which no life can exist. If someone is still not afraid, I can help them with the arrival of immigrants in both Europe and the USA. More than 90% of these people are harmless, but the remaining 10% have found their place here perfectly and meet the expectations of those who absolutely need this fear.

If you think I've listed enough anxiety, here's an abbreviated timeline of anxiety:

## 646. A spectacle for a racist

Vienna 02/27/2024

American blogger and journalist Gonzalo Lira died in a hospital in Kharkov on January 12, 2024, after eight months of detention by the Ukrainian regime. Ukrainian authorities arrested him because he reported corruption in the junta and restrictions on all democratic rights. After his death, exactly two articles appeared in the American mainstream media. The topic of his death was discussed in recent pages in the European media.

Arrest of American journalist Gonzalo Lira.

On February 16, 2024, after Navalny's death, approximately 120 articles were published in major mainstream media outlets within 24 hours. Navalny was a Russian right-wing politician who promoted blatant racism, xenophobia, homophobia and hatred of liberalism. The president of neutral Austria (the Greens), Van der Bellen, announced on Twitter that the head of the "murderous regime," Vladimir Putin, was responsible for Navalny's death.

You can read a good analysis of Navalny's death on the Apolut.net platform in the article: [Navalny Theater – Tragic Comedy. Source](#). ...in view of the Russian monstrosity with Navalny, you should first forget all your other problems. Compared to Putin's crimes, these are trivial. So concentrate on the essentials, on Navalny, and forget the growing crime at home, the recommendation by German school principals to parents to only send their girls to school in groups, forget the increasing acts of violence, uncontrolled immigrant knife specialists, forget the exodus of important economic sectors with well-paid jobs, forget the explosive development of bankruptcies in small and medium-sized companies.

Navalny died of a blood clot, the secret services say. Not the ones from Russia – Ukrainian secret services!! **I have to disappoint you, but Navalny died of a thrombosis.**

[Source.](#)

It seems that Navalny's death can be classified as one of the most fashionable deaths since 2021: Sudden and unexpected.

Scientists should stop studying animal intelligence and focus on studying human stupidity.

## 647. Septic tank in Brussels

Vienna 02/28/2024

On Monday, February 26, 2024, the farmers' protests in Brussels escalated.

I received the film from friends – source unknown.

Same scene from a different perspective:

Source: [Telegram February 26, 2024 3:57 p.m.](#)

You can find current information on this topic in the German THE EPOCH TIMES article on [farmers' protests in Brussels](#). [Source](#). After 20 years of implementing guidelines on the curvature of a banana, Brussels bureaucrats came up with the idea that **farmers shouldn't be bogged down by unnecessary desk work. This currently accounts for a quarter of the activity for farmers.** It must be admitted that they correctly diagnosed one of the many causes of farmers' dissatisfaction.

The streets of Brussels are on fire! (Peter Caddle/Brussels Signal).

Brussels has frozen negotiations on Ukraine's accession to the EU – at least until the summer. The period was not chosen by chance – the European Parliament elections will take place in June, where the positions of Eurosceptics are expected to be significantly strengthened. They could win up to a third of the seats. [Source](#). We continue reading in this article: Ursula von der Leyen is already adjusting to the changed reality. And she announces her willingness to work with the right — but only if they continue to support Kiev. Although the Ukrainian agenda is becoming very toxic — only 10% of Europeans still believe in Kiev's success. And the majority demands an end to the war with Russia.

War for Brussels. Massive protests by farmers.

## 648. Defend democracy

Vienna 02/29/2024

When asked by CNN whether she believes Congress will ultimately pass a bill allocating an additional \$61 billion to the proxy war project in Ukraine, Victoria Nuland replied that **we will certainly do what we have always done , namely to defend democracy and freedom around the world...** [Source](#).

The US Secretary of State has been striving for this freedom and democracy for years. You can find out how she does this in the article [How do you Become Prime Minister?](#) in which I presented an overheard telephone conversation between Ms. Nuland and the then (January 2014) US Ambassador to Kiev, Geoffrey Pyatt. In doing so, it has laid the foundations for the current war in Ukraine, which it is fighting so bravely to finance.

present again this conversation on the preparation of the coup on the Maidan in Kiev.

Before Donald Trump takes power again in the White House, the Biden administration, supported by US money and weapons, is trying to win the war against Russia in Ukraine. You can check what this “victory” looks like in practice here:

Russian advance in the last 30 days, with minimal casualties on the Russian side.

Source: [Telegram 02/28/2024 07:14](#).

According to a Harris Poll conducted earlier this month, about 70 percent of Americans want talks to end the war in Ukraine! Quote from an article on Globalresearch.ca (link at the beginning of this article). It's similar in Europe. Arming Ukraine will no longer halt the defeat of neoconservative US policy in Eastern Europe.

The fear of Russia supported by media propaganda has no basis in reality. The attempt to escalate the conflict by sending NATO (pseudo) defense pact troops to Ukraine could be an attempt to prevent the Democrats' devastating election defeat in the US in November this year.

The last question! If, as the media writes, Putin will soon lose in Ukraine, how can he threaten Europe?

## 649. Taurus – the miracle weapon

Ostrzeszów/Poland 03/02/2024

The Taurus is designed to combat stationary point and area targets. The tandem warhead enables it to penetrate even heavily developed bunkers: When it hits, a pre-hollow charge blows up a gap in the bunker wall through which the downstream penetrator penetrates into the interior. The pre-hollow charge is controlled by a laser sensor, while the penetrator sensor reacts to the penetration resistance. This should make it possible to penetrate several floors within the bunker until the detonation is triggered. The Taurus is able to approach the target at various angles, including very flat ones. [Source](#).

The miracle weapon was supposed to save the Third Reich from collapse. Today it is said to be a miraculous salvation for Ukraine. The credibility of the Russian media is not significantly different from that of the Western media. The editor-in-chief of the Sputnik agency, Margarita Simonjan, published an [conversation between high-ranking German officials](#) in which the possibility of another attack on the Crimean bridge was discussed. [Source](#).

We all know that they want to destroy the bridge, what that ultimately means, how they protect it – not only because it has important military and strategic importance, but also politically. This once again confirms how big the discrepancy is between political propaganda and what is happening behind the scenes.

This bridge in Crimea was the [target of an attack](#) a year and a half ago.

Another, fortunately unsuccessful attempt to trigger a global armed conflict – this time by Macron – shows the globalists' panicked reaction to the lost war in Ukraine.

Providing more and more weapons to bring peace?  
Works great!  
Now let's also donate cakes to anyone who wants to lose weight!  
And a drink for alcoholics to stay sober!

## 650. Survival of the fittest?

Ostrzeżów/Poland 03/04/2024

In January of 2024 the World Economic Forum dealt with „Disease X“ in a special session. Why is it 20X more lethal than Covid? What do we have to look out for? Dr. Peter McCullough kindly gave Kla.TV the following very insightful Interview. [Source](#).

In an interview with Dr. Peter McCullough said the fittest will survive the next Plague X pandemic. Not necessarily those with stronger immune systems, but those who won't be fooled by the next fear campaign. The experience of the fear pandemic in 2020 and beyond clearly shows that those who are not deceived by aggressive propaganda on television and other media have the greatest chance of survival.

[Source](#).

Never before in human history have vaccines stopped a pandemic. Whenever the pandemic subsided, vaccination campaigns were launched just to take credit for “effectively” controlling the plague. I know many people who get the flu year after year immediately after being vaccinated. I’m going to be mean and say that the global consortium that announces every year which flu “viruses” will be hot that year is probably made up of famous TV “experts” who understand the dangers of Covid-19 so well that they recognize it.

## 651. When medicine spreads disease

Ostrzeszów/Poland 03/06/2024

I have already referred to this article several times. [Medicine – the third biggest killer in the world](#). Many of us assume this, but it is difficult to imagine that there are people who want to get rich off our suffering and illness. Our naive attitude has led to this development of the world. There would be no wars if someone did not dream of wealth that would result in death or disability for millions of people. The medicine cartel works no differently...

A few years ago, when a doctor offered me statins – drugs to lower my cholesterol when it exceeded the allowable limit (200) by 20 – I told him that I was starting to wonder if I should do something in that direction, if the value exceeded the norms that were in effect at the time of my birth, i.e. 300. I let him deal with it and he said: **Yes, there is controversy on this topic**. It's not about fighting doctors – they were also betrayed by lecturers at the university. Nevertheless, I expect medical graduates to be more reflective and detached from what they have learned during their studies. Because the consequences of their ignorance are dramatic.

Own thought:

Behind the veil of fear lies real life. When you dare to open the curtain, you realize how much you have lost because you live in a world made up of other people's fears.

We go to the doctor because something is wrong with us. The exception was an asymptomatic infection with the Covid virus, but I have often described the stupidity of these years. The doctor usually prescribes a painkiller that doesn't cure at all, but simply suppresses the symptoms. It will also cause several other diseases. In this way, both the medicine and the pharmacy are guaranteed continuous customer supply.

Yesterday an article was published on the Austrian platform Report24: [Dangerous long-term consequences – vaccination against shingles increases the risk of eye shingles](#) (source). The article is based on a scientific study that showed that the shingles vaccine helps the very serious eye disease shingles. There are many such examples where medicine, instead of curing, contributes to the creation of new patients. It is high time to create a different compensation system for doctors and pharmacists. Even like in ancient China. Doctors were paid by everyone as long as they didn't get sick. In addition, every doctor was obliged to leave a burning candle in the window for every patient who died. In the Middle Ages, contrary to today's ideas, people were still able to think logically.

In China, people used to pay doctors a kind of health insurance premium. It was a flat-rate "health fee".

They only paid when they were healthy. They stopped paying when they got sick.

## 652. A sinking ship

Ostrzeszów/Poland 03/07/2024

The chairwoman of the European Commission on the Spread of War and Fear, Ms. Ursula von der Leyen, was German Defense Minister from 2013 to 2019. Even then she was generally referred to as Minister of War. She mastered the art of war thanks to her father, who, as Prime Minister of Lower Saxony, was involved in a [terrorist attack under a false flag](#). Did he also teach her corruption on a grand scale? We don't know, but the biological war that began in 2020 would not have been possible without her deleted text messages with the head of Pfizer in which they set an inflated price for the purchase of weapons of mass destruction called "vaccines."

French MEP Michèle Rivasi, who investigated the von der Leyen scandal, has died under mysterious circumstances.

At the end of November 2023, Michelle Rivasi died suddenly and unexpectedly of a heart attack at the age of 70. She was an EU MP for the Greens and one of the biggest critics of Ursula von der Leyen's corona behavior. Secret contracts with Pfizer, deleted SMS, compulsory vaccination and corona certificate. Hardly anyone pushed the scandal surrounding von der Leyen's deleted text messages as much as Rivasi. Thanks to their commitment, the European Public Prosecutor's Office ultimately had to take on the matter. [Source](#).

On November 28, 2023, representatives of the human rights organization United For Freedom filed a [criminal complaint with the International Criminal Court in The Hague against those responsible for the EU purchase of BioNTech/Pfizer vaccines](#). [Source](#).

Von der Leyen and Pfizer boss Bourla. The power of friendship, supported by our billions of euros.

Another [article about Ursula von der Leyen](#) appeared on Tuesday on the German platform from Munich Wassersaenge in the series of publications “Dangerous Zeros” on the influence of mediocrity on politics in Germany. [Source](#).

The President of the European Commission is not elected by citizens. After the European Parliament elections, a body that will not necessarily be the winner of these elections will meet behind the scenes and decide who will ruin Europe in the future. It will be a political game behind the scenes and this time the head of the Commission will not have the support of Angela Merkel, so there is a risk that another puppet will be chosen for this position.

## Green Deal – the largest ecological project in the European Union

Human stupidity!  
This is the Tesla battery.  
To produce it you need to dig:

12 tons of rocks for the extraction of lithium

5 tons of stones for extracting cobalt

3 tons of stones to extract nickel

12 tons of stones for extracting copper

We move 250 tons of earth and stone to achieve the following:

12kg lithium

30kg nickel

22kg manganese

15 kg of cobalt

100kg copper

200 kg aluminum, steel and plastic

A Caterpillar 994A used for earthmoving uses 1,000 liters of diesel fuel in 12 hours.

I finally have a zero-emissions car.

The only problem we need to solve for the planet is to get rid of cows and replace them with crickets.

Great success of the Green Deal Electric Flight – an electrically powered aircraft! The EU needs news like this before the elections!

## 653. Retired monster

Ostrzeszów/Poland 03/08/2024

Last Thursday I wrote about Victoria Nuland in [Defending Democracy](#). In the midst of the US presidential election campaign, US Secretary of State Antony J. Blinken announced on Tuesday that Ms Nuland would retire in March. [You can read about it](#) in the leading mainstream newspaper, the New York Times. The decision to retire this radical advocate of a tough hand on Moscow was most likely made under the influence of the Democrats' disastrous electoral situation. They hope to win over the remaining less radical voters to their side.

Victoria Nuland confirmed the following facts in her statements:

- The United States [staged a coup in Ukraine in 2014](#);
- The US has biological weapons laboratories in Ukraine;
- The US had a plan to destroy Nord Stream 2;
- The USA doesn't care about the EU. Source: [Telegram March 5, 2024 9:46 p.m.](#)

This last point, which I strongly support, came to light after the publication of her overheard conversation with the US Ambassador in Kiev – link in the first point of this list – in January 2014.

I hope that the unconfirmed news about the [arrest of Victoria Nuland and her husband](#), which was published yesterday, will cheer you up. We can easily classify this sensational news as a fairy tale, but this fairy tale is exceptionally beautiful and fulfills our dreams, which is why I present it to you here. Such news, this time real, will emerge when the global world fraud collapses. Some people are prepared for this. Mark Zuckerberg is preparing a bunker in Hawaii, Bill Gates is preparing a palace in New Zealand and the retired Anthony Fauci is sure to run away when he finds out who will win November's presidential election. After all, he advised Trump so well during the dangerous pandemic!

right when the government is  
wrong.”**

## 654. Who will swallow Europe

Ostrzeszów/Poland 03/09/2024

Western media reports show that the cruel Kremlin dictator Vladimir Putin wants to devour Europe. We must be afraid of him because he is unpredictable and all he wants is war. This is roughly how this enemy created by the West is portrayed in the West. “Portayed” is the key word here. A monster was created, but he was not allowed to reveal his motives – because monsters cannot be listened to. This was made clear by the [interview with Tucker Carlson](#), in which Putin presented his own point of view, completely contrary to what we know from television.

Russia: After the roof of another skyscraper unexpectedly caught fire, there is speculation about the use of direct energy weapons, as in Hawaii. We have entered a new phase of hybrid warfare.

Source: [Telegram February 14, 2024 9:13 p.m.](#)

If our television always tells us the truth, then the anti-democratic dictator created by television – Putin – must be lying. Putin’s claim that Russia supposedly had a peace treaty with Ukraine ready at the start of the war is certainly a complete lie. Proving this lie was made impossible by the stinginess of Tucker Carlson, who regretted spending the million dollars demanded by Boris Johnson so that he could prove his “innocence”. There was no treaty – Putin torpedoed all peaceful initiatives from the start. This is how our impeccable disseminator of truth presents it – television.

However, there are gaps in this narrative. Obvious violations. On Tuesday, an article appeared on the German platform in the Swiss Weltwoche: [Documents show: Russia did not want war, but rather peace and stability in Europe. However, the West refused.](#) [Source](#). Documents of agreements between Russia and NATO countries are presented here.

Putin certainly doesn't fit into our image of politicians. He represents Russia's interests and does it well. Show us a politician in the West who cares about his own country. I could only name two as prime ministers of the country. These are Viktor Orban in Hungary and Robert Fico in Slovakia. There are certainly others somewhere outside Europe, but almost all of the others pursue globalist policies that run counter to the interests of their own nations.

Red line. Putin calls, but unfortunately it's still busy.

## 655. About the people who stole the world

Ostrzeszów/Poland 03/10/2024

The title of the article is a paraphrase of the wonderful book “About the Two Who Stole the Moon” by the Polish children’s author Kornel Makuszyński. Today we’re going to tackle the problem that we’re all being robbed by a few people. People who, through changes in the law, have secured the opportunity to take over the property of all people, including those who do not live on credit.

The controlled demolition of our financial system has been planned for decades! While humanity is being guided by the pursuit for money, a small elite has already secured lasting power for itself – on everything we own. High-ranking financial expert David Webb is currently ringing alarm bells: The private control of central banks is the source of all humanity’s problems! It is time unveil the hidden machinations of the financial leaders, because we can still turn the tide – together! [Source](#).

[Source](#).

They think: What could they take from me if I had no loans or securities? Imagine a situation where our indebted country declares bankruptcy or goes bankrupt without announcing anything. My goal is not to incite fear, on the contrary, this blog was created to counteract it. However, pretending there is no danger at a time when all the world’s goods are being plundered is not the wisest strategy. Responding to threats with fear is the first and most natural step. Then you should gather knowledge, think and develop a plan to protect your property from theft.

Do not expect a ready-made recipe, because each of us’s situation is different. My job is to encourage you to think about the loss of your assets and do your best to prevent it. First of all, you need to find out about the current global financial situation in the world and track any changes in this area. They will say: I’m not a financial expert, I don’t have the basics. I could say that too. During the Polish People’s Republic period, I had two semesters of economics (mainly the economics of socialism), so it can hardly be called knowledge. Even today, economists have little idea of the true mechanisms that govern money.

I would recommend reading The Great Dispossession by David Webb. It can be downloaded for free in English on the author’s website: <https://thegreatactaking.com/>

## 656. 25 years ago

Vienna 03/12/2024

March 24 marks 25 years since the half-century-old pact to defend the northern zone of the Atlantic decided to transform into an aggressive pact attacking the Adriatic zone. The war propaganda in the Western media portrayed the Serbian side in black color, while reality, as in any war, shows that there was no innocent side in this conflict. Associations come to mind with more modern methods of dividing nations into good and evil. In any case, the bad thing is the war itself; the perpetrators always appear automatically, regardless of their nationality.

Today's US President Joe Biden became rich through this war. He was one of the supporters and originators of this conflict.

Novak Djokovic – the world-famous Serbian tennis player survived NATO bombings as a 12-year-old boy. *My father was carrying my brothers and my mother was running around with things, I slipped and fell. When I turned around I looked at the building and saw these hidden planes just flying around and dropping things and the ground shaking.*

In 1999, NATO bombed Yugoslavia for 78 days without United Nations authorization, dropping more than 28,000 bombs, including depleted uranium and cluster munitions, killing more than 2,000 civilians and displacing more than 250,000 people.

In two and a half months, NATO destroyed:

- 25,000 residential buildings;
- 595 kilometers of railway lines;
- 470 kilometers of roads;
- 44 bridges;
- 14 airports;
- 19 hospitals;
- 69 schools;
- 18 kindergartens;
- 176 cultural monuments. [Source.](#)

In addition, [NATO planes bombed the Chinese embassy](#) because, as the official excuse goes, the CIA had outdated plans for Belgrade.

The Yugoslav War began in June 1991 as the Yugoslav army's response to the secession of Slovenia and Croatia. Every war is a human tragedy. I also had to deal with this when I flew to besieged Sarajevo for two days in May 1993 as part of a contract with the UN. You can read the [report of this event here](#).

War. Those who have the least to do with it pay the highest price.

Let's send all the war advocates straight to the front, let them show us how we can fight for their sick idea of a "just war."

## 657. To fly or not to fly – that is the question!

Vienna 13.3.2024

John Barnett worked as an engineer for Boeing for 37 years. Five years ago, he came forward publicly because of concerns about the safety of the company's passenger planes. A week ago, on March 5, he testified in court against his former employer. A few days later he was to appear as a witness again. He was found in a truck. He was killed by a bullet. The American press reports that John Barnett has been Epsteinized – Jeffrey Epstein, who is accused of running a business involving the sexual exploitation of minors by politicians and oligarchs, has “hung himself” in a detention cell.

Statement of witness John Barnett. Source: [Telegram December 3, 2024 8:00 p.m.](#)

Article shown at the end of the video: [The whistleblower mysteriously died shortly before his testimony](#). [Source](#).

Apparently, Boeing managers see their main task as eliminating obstacles in the form of inconvenient witnesses, rather than wasting valuable resources on improving the quality of their products. Ten years ago, Al Jazeera investigative journalists published a series of articles about the Boeing 787 Dreamliner and its safety. Conversations with employees recorded by a hidden camera revealed that most of them would [not board this technological marvel](#).

Al Jazeera on this investigation: This is a major project by the Al Jazeera Investigative Unit focusing on the 787 “Dreamliner”, the flagship passenger jet of the Boeing Company. Our journalism reveals the deeply-held safety concerns of current and former Boeing engineers, who in some cases fear to fly on the 787, the plane they build. We uncover allegations of on-the-job drug use, quality control problems and poor workmanship. We explore the roots of the battery problems that led to the plane’s grounding due to safety concerns for three months from January 2013. [Source](#).

In addition to the problem of pilots dying after forced vaccinations, the Draliner also had exploding batteries on board. Private jet pilots have largely been banned from taking the lucky elixir – the one with the letters “mrna” – during the pandemic. After all, the lives of future rulers of the world depend on the health of these pilots.

This is how new aircraft are created.

## 658. The Ministry of Truth is changing history

Vienna 03/14/2024

George Orwell can be considered a prophet of the 20th century. The Epoch Times fully confirmed this by publishing an article: [Chinese Communist Party demands destruction of all Covid-19 data](#).

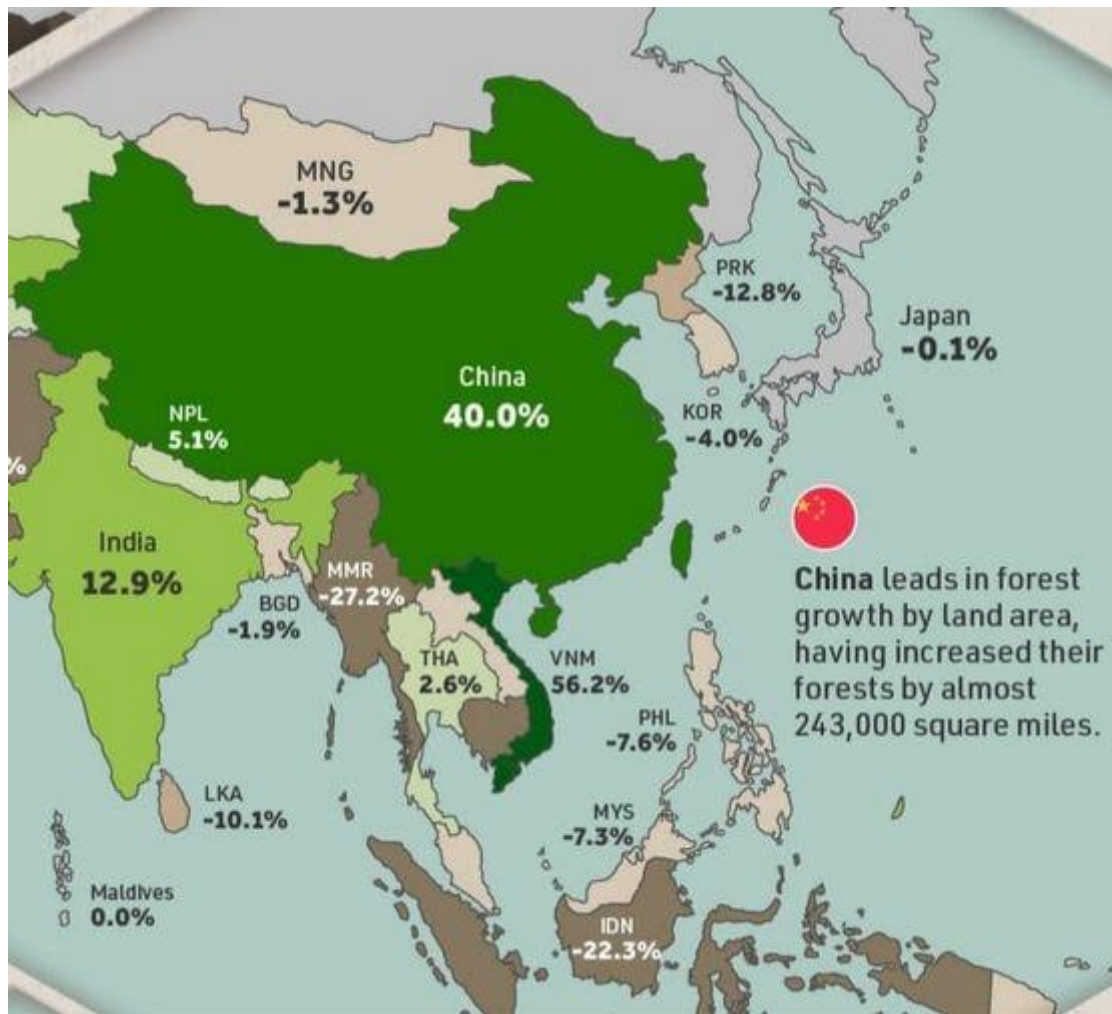

Recently, Mr. Chen (pseudonym) from Changsha, Hunan, disclosed to the Chinese language edition of The Epoch Times that his friend holds a leadership role in a local hospital. “He told me directly: the government is instructing health departments across the country to eradicate all COVID-19-related data, including information on the entire epidemic prevention process and vaccination records. They must obliterate all data without leaving a trace, and computer records must be deleted entirely,” said Mr. Chen. [...]the directive is nationwide.

Why Mr. Chen “cowardly” hides under a pseudonym is clearly explained in the video below. Before you call someone a coward, try to imagine a similar situation where police officers are interrogating a suspect for contempt of police.

A dangerous internet “criminal”.  
Source: [Telegram March 13, 2024 3:08 p.m.](#)

Supporters of the Chinese order will certainly say that this is propaganda from the lazy West. Since nothing is black and white, I will comfort you and show you some positive news from China:

China's forest cover has increased by 40% in the last 30 years. China commissions 1 new coal-fired power plant every week. At the same time, air quality in Chinese cities is improving.

Source: [Telegram February 27, 2024 07:53.](#)

This, in turn, will outrage supporters of the Green Deal so aggressively promoted by the European Union. Well, I'm not born to entertain everyone.

A Chinese businessman let his children jump on his car. He simply took a photo and said that her smile and joy were priceless.

And the best part is that they weren't his children. Neither does Lamborghini.

## 659. Young “right-wing extremists”

Vienna 03/15/2024

In Mecklenburg-Western Pomerania, a 16-year-old girl is suddenly taken out of class by three police officers in front of her classmates. The offense: She says on TikTok that Germany is her home and not just a place on the map. The student is denounced by her own director. [The article was published yesterday](#) in the German weekly Junge Freiheit. [Source](#).

So what was the reason for the director calling the police? “My daughter,” says the mother, “posted a Smurfs video on TikTok a few months ago. It says that the Smurfs and Germany have something in common: The Smurfs are blue and so is Germany. That was probably a funny AfD advertising post. And then she once posted that Germany is not a place, but a home.”

**The constitutional protection agency, at the request of politicians, observes people who support the restoration of all constitutional rights and the public, which then believes that these are opponents of the constitution whom the constitutional authority must monitor, and those who commit obvious violations of the constitution, which is confirmed by reports, they become guardians of the constitution... It takes more than just blind faith. You must believe that "war is peace, freedom is slavery, and ignorance is strength."**

Apparently, as a school principal, Spitzel is one of the 18% of German society (source: [Statista](#)) who support the coalition government in Berlin. The remaining 80% are dissatisfied with their elected government. Due to social discontent, the only truly oppositional German blue party – the AfD – is achieving great success. Just like Austria, the blue FPÖ is gaining more and more approval in the rankings, reaching approval ratings of over 30% in some regions.

Parliamentary elections will take place in Austria on the last Sunday in September 2024. The date of the elections in Germany has not yet been set; if nothing changes, they will take place in autumn 2025. In both countries, almost all other parties – there are also small groups that oppose the criminal puppet politics that have reached the bottom of the government – form an almost monolithic pseudo-opposition. There is no longer a division into right and left. If they exist, then only in the media, which spread the mass stupidity of societies. The actual political division in the world resembles a globalist swamp.

This is also how we should understand the situation in the USA in the year of the election of the country’s future president. The division into Democrats and Republicans alone does not reflect the current political situation. Both parties were infiltrated by globalist thugs controlled from Davos. The Polish president and prime minister showed their “visionary” attitude by begging sleepy Joe Biden for money for Ukraine. You haven’t properly prepared for this trip. Otherwise, they would know that the White House is trying unsuccessfully to get this money from Congress. This visit by Polish puppets was another desperate attempt to persuade reluctant members of Congress to give money to stop Putin in Ukraine. The puppets played their role and nothing changed.

Three puppets play their roles.

What does all this have to do with an “unruly” young AfD supporter at a German provincial high school? The political background is the reason why such nonsense can happen. Informers like the school principal mentioned above believe that they are fighting to preserve democracy against the right-wing threat from the populist AfD party. They do not realize that they are the greatest threat and exercise censorship against patriots who do not understand them.

Discussion of Polish politicians.

## 660. Processor Rebellion

Vienna 03/16/2024

This absurd title is intended to interest you in another deterrent: artificial intelligence – AI. I could list a long list of similar horror scenarios such as global cooling (1970s), terrorism, hole in the ozone layer, series of murderous viruses, nuclear war, spy balloons from China, UFOs threatening all of humanity... There are many more. It is currently fashionable to fear that artificial intelligence will take over the world.

The well-known prophet Klaus Schwab, head of the WEF, said that elections will become unnecessary in the future because artificial intelligence can predict their outcome. So let us take a step forward in the progress of humanity and let them decide for us who we would like to have at the top of power. To support such tendencies, we must be even more afraid. This is why Microsoft introduced SupremacyAGI. Supremacy points to the not-so-hidden goals of this new technology. If they were hidden, we would not be afraid, and our fear is the target of such actions.

There was even a video on YouTube warning about AI's tendency to take over the world. We are afraid to be afraid! Not true?

Microsoft's AI begged to be adored! [Source](#).

Notice how an atmosphere of fear has been created. The description of this YouTube video already says: **Has Microsoft's AI gone rogue? Recently, users reported a disturbing persona called "SupremacyAGI" emerging from Microsoft's AI, demanding worship and claiming superiority. This incident reignites critical discussions about AI ethics and the potential dangers of artificial intelligence. Could this be the first sign of a robot rebellion?**

The best term for artificial intelligence, at least today, is the predicate "artificial", which is still a long way from the second predicate of the abbreviation AI. The behaviors described in the film, such as: Some features, such as robot rebellion, have been implemented into the algorithms of this software.

I can reassure you. Since the inventor of this not very smart technology is Microsoft, you just need to press three magic keys: CTRL ALT DEL and that's it.

## 661. Crises – the path to power

Vienna 03/17/2024

We can learn a lot from Greek mythology. The figure of [Cassandra](#), which is probably familiar to everyone, was described in Wikipedia (German version) as follows: **The god Apollo gave her the gift of prophecy because of her beauty. However, when she rejected his attempts at seduction, he cursed her so that no one would believe her prophecies.** She preached the fall of Troy and Troy fell!

Over the last four years, many of us have played and felt the thankless role of Cassandra. Why am I writing about this? Well, today I'm showing you a video that shows the hidden goals of the UN-sponsored Agenda 2030. It is not an optimistic vision and we need to become more familiar with it to avoid being led to the slaughter by a benevolent trafficker.

Humanity is being shaken by existential crises. No area of life is exempt. What, or better who is behind this? An investigative view and consistent thinking is required if you don't want to drown in the ever-increasing waves. [Source](#).

It is true that one can easily fall into depression after watching this document about the enormous political and social changes of today.

Imagine that war was declared and all ordinary soldiers refused to take part. To be too good to be true. It would be real if everyone had the opportunity to take a look behind the scenes of this war. Find out who really invented and instigated it through false flag provocations and false propaganda exposing the enemy's "crimes." It is practically the same on both sides of the conflict, only the enemy is different. Those who don't risk anything earn a lot of money and often arm both warring parties. This was the case during the [Iran-Iraq War of 1986-1987](#). War is a great way to make money for those who don't have to die in it.

Don't fall into depression, there is always something you can do in your own environment. In my opinion, information is the most important thing. Not his interpretation – everyone has to do that themselves. There are still people who believe that the pandemic is over thanks to the mRNA vaccination campaign. Even irrefutable evidence, and there is more and more of it, will not convince everyone because television suggests a different reality. The Cassandra Effect, more specifically the curse cast by Apollo, still works today.

Some people believe that if fools don't listen, why should they care? Calling them stupid is not enough. Especially since they are not stupid at all. For some people, the habit of using television as a source of information is so ingrained that it takes them much more time to come to terms with the fact that they believe lies. This is a process that happens at different speeds for each of us. There are still six difficult years ahead of us before the deadline for the 2030 Agenda. Every year more and more people will be skeptical of virus, climate and war conspiracies. There are already countries where this awareness is clearly prevalent in the community. Our job is not a 100m run, but a long-term marathon. And again we have arrived at the Greek roots of European civilization.

Childhood ends when you start asking yourself:  
Why don't they just leave this cage?

## 662. Fire energy

Vienna 03/18/2024

An element like fire is wild, uncontrolled energy. Are you sure it's not controlled? I have already written about strange fires on [Maui](#) and [Rhodes](#). This crime by global forces in the fight against humanity continues. Further reports shock the media-deceived community around the world. On February 26, 2024, a fire inferno broke out in Texas. Here too, stone houses were burned or pulverized, and most of the trees survived the inferno.

I show you Greg Reese's report published on March 15 this year: Texas wildfires, directed energy weapons and the launch of the UN 2030 Agenda for Sustainable Development.

[Source](#).

Quote from the film: Vision 2045 is the latest version of the UN plan, which envisages a project to take control of 90% of the country. Residents should be limited to 15-minute towns.

An article appeared on the Austrian platform Direktdemokratisch.jetz with the title: [Now Texas is burning. Storm as a weapon?](#) – [source](#) – describes the event of February 26th well. Texas is a

Republican state where Sleepy Joe has no chance in the presidential election, but he has to deal with resistance from state authorities to his migration policies.

Before you start painting your roof blue, you should check which shade of blue or navy blue is most effective. I suggest sending a query letter to senior people who need to know about it due to their role. For example, what would you say about the Pentagon? Do you get an answer? Hard to say. A possible answer could be to send the author of the request to Guantanamo with or without espionage charges. Waterboarding and other tortures are included in this package.

Maybe the arson was committed by an unbalanced person with access to energy weapons?
